**Attachment to Grant**  
**IBFS File Nos. SAT-LOA-20090410-00043 and**  
**SAT-AMD-20090528-00059**  
**Call Sign: S2789**

The application of Intelsat North America LLC (Intelsat North America), IBFS File No. SAT-LOA-20090410-00043, as amended by IBFS File No. SAT-AMD-20090528-00059, to launch and operate a Ku-/extended Ku-band geostationary orbit space station, Intelsat 15 (Call Sign: S2789), at the 85.15° E.L. orbital location IS GRANTED.<sup>1</sup> Accordingly, Intelsat North America is authorized to operate the Intelsat 15 space station at the 85.15° E.L. orbital location using the 14.00-14.50 GHz (Earth-to-space), 13.75-14.5 GHz (Earth-to-space), 10.95-11.20 GHz (space-to-Earth), 11.45-11.70 GHz (space-to-Earth), and 12.5-12.75 GHz (space-to-Earth) frequency bands to provide Fixed-Satellite Service (FSS) in accordance with the technical specifications set forth in Intelsat North America's application, as amended, the Federal Communication Commission's rules, and subject to the following conditions:

1. Intelsat North America shall prepare all necessary information that may be required for submission to the International Telecommunication Union (ITU) to initiate and complete the advance publication, international coordination, due diligence, and notification procedures for this space station, in accordance with the ITU Radio Regulations. Intelsat North America shall be held responsible for all cost recovery fees associated with these ITU filings. No protection from interference caused by radio stations authorized by other Administrations is guaranteed unless coordination and notification procedures are timely completed or, with respect to individual Administrations, by successfully completing coordination agreements. Any radio station authorization for which coordination has not been completed may be subject to additional terms and conditions as required to effect coordination of the frequency assignments with other Administrations. 47 C.F.R. § 25.111(b).

2. Intelsat North America is granted a waiver of Section 25.114(d)(3) of the Commission's rules, 47 C.F.R. § 25.114(d)(3). Section 25.114(d)(3) requires each applicant to provide "Predicted space station antenna gain contour(s) for each transmit and each receive antenna beam and nominal orbital location requested." The main purpose of the contour map is to allow evaluation of the potential for harmful interference with other operators and services in the frequency band.<sup>2</sup> The Intelsat 15 application indicates that the omni-directional and wide-coverage antenna diagrams – Exhibits 6L, 6M, 6P and 6Q – were not prepared in accordance with the requirements in Section 25.114(d)(3) of the Commission's rules because the space station manufacturer did not provide contours in the required form. We find, however, that Exhibits 6L, 6M, 6P and 6Q, together with the descriptive characterization provided in Section 2.7.1 of the application, provide a sufficiently complete description of the transponder characteristics of the Intelsat 15 space station to enable coordination of the frequency assignments with other administrations.

3. Intelsat North America is authorized to use 14002 MHz and 14004.5 MHz for command of the Intelsat 15 space station. No waiver of Section 25.202(g) is required to authorize the use of these frequencies for command functions. *See* Northrop Grumman Space & Mission Systems Corp., *Order and Authorization*, 24 FCC Rcd 2330, 2362 (para. 95) (Int'l Bur. Feb. 24, 2009).

---

<sup>1</sup> Intelsat North America states that Intelsat 15 will replace Intelsat 709 (S2396), which is currently located at 85.15° E.L. The application for Intelsat 15 contains new frequency bands not previously authorized on Intelsat 709 and omits certain frequency bands authorized on Intelsat 709. Specifically, the 13.75-14.0 GHz (Earth-to-space) frequency band requested for the Intelsat 15 space station is not authorized for the Intelsat 709 space station. The frequency bands that are on the Intelsat 709 authorization, but are not part of the Intelsat 15 application, are the 3700-4200 MHz (space-to-Earth), 5925-6435 MHz (Earth-to-space), and 6170-6180 MHz (Earth-to-space) frequency bands. Intelsat has a pending application to relocate Intelsat 709 to the 54.85 ° E.L. orbital location following the successful launch of Intelsat 15. *See* IBFS File No. SAT-MOD-20091106-00117.

<sup>2</sup> *See* SES Americom, Inc., *Order and Authorization*, 19 FCC Rcd. 20,377, 20,377-78 (paras. 4-8) (Int'l Bur., Sat. Div. 2004).

**Attachment to Grant**  
**IBFS File Nos. SAT-LOA-20090410-00043 and**  
**SAT-AMD-20090528-00059**  
**Call Sign: S2789**

4. Pursuant to footnote US337 of the United States Table of Frequency Allocations, 47 C.F.R. § 2.106, any earth station in the United States and its possessions (US&P) communicating with the Intelsat15 space station in the 13.75-14.0 GHz frequency band (Earth-to-space) is required to coordinate through National Telecommunications and Information Administration's (NTIA's) Interdepartment Radio Advisory Committee's (IRAC's) Frequency Assignment Subcommittee (FAS).<sup>3</sup>

5. Operations of any earth station in the US&P communicating with the Intelsat 15 space station in the 13.75-14.0 GHz frequency band (Earth-to-space) shall comply with footnote US356 to United States Table of Frequency Allocations, 47 C.F.R. § 2.106, which specifies a minimum antenna diameter of 4.5 meters and a minimum equivalent isotropically radiated power (e.i.r.p.).<sup>4</sup> Operations of any earth station located outside the US&P communicating with the Intelsat 15 space station in the 13.75-14.0 GHz frequency band (Earth-to-space) shall be consistent with footnote 5.502 to the ITU Radio Regulations, which allows a minimum antenna diameter of 1.2 meters for earth stations of a geostationary satellite orbit network.<sup>5</sup>

6. Operators of earth stations accessing the Intelsat 15 space station in the 13.75-14.0 GHz frequency band are encouraged to cooperate voluntarily with the National Aeronautics and Space Administration (NASA) in order to facilitate continued operation of NASA's Tropical Rainfall Measuring Mission (TRMM) satellite.<sup>6</sup>

7. Intelsat North America's use of the 10.95-11.2 GHz and the 11.45-11.7 GHz frequency bands is subject to footnote US211 to the United States Table of Frequency Allocations, 47 C.F.R. § 2.106, US211, which urges applicants for airborne or space station assignments to take all practicable steps to protect radio astronomy observations in the adjacent bands from harmful interference, consistent with footnote US74.

8. In the 13.75-14.0 GHz band, receiving space stations in the fixed-satellite service shall not claim protection from radiolocation transmitting stations operating in accordance with the United States Table of Frequency Allocations.

---

<sup>3</sup> Footnote US337 requires that earth stations operating in the 13.75-13.8 GHz frequency band shall be coordinated through NTIA's IRAC's FAS to minimize interference to the forward space-to-space link of the National Aeronautics and Space Administration Tracking and Data Relay Satellite System. 47 C.F.R. § 2.106, US337.

<sup>4</sup> Footnote US356 places a restriction on a minimum antenna diameter of 4.5 meters and the e.i.r.p. that should be on FSS operations in order to protect government operations in the band, including manned space flight. 47 C.F.R. § 2.106, US356.

<sup>5</sup> Footnote 5.502 to the ITU Radio Regulations establishes minimum antenna diameters for earth stations of geostationary and non-geostationary satellite networks, and places certain restrictions on either the minimum e.i.r.p. or the power flux density (p.f.d.) levels produced by earth stations operating in the 13.75-14.0 GHz frequency band.

<sup>6</sup> NASA's TRMM satellite system radar in the 13.793-13.805 GHz frequency band remains operational and is a highly valuable and visible United States asset with a broad range of international users. Accordingly, NTIA has requested cooperation from the Commission and non-Federal Government entities in providing assistance in reducing interference with the TRMM radar. Specifically, NTIA requests that FSS earth stations in the 13.793 - 13.805 GHz frequency band located south of 39° N. and east of 110° W. operate with emission levels below -150 dBW/600 kHz at the TRMM space station receiver. Letter from Frederick R. Wentland, Acting Associate Administrator, Office of Spectrum Management, NTIA, to Don Abelson, Chief, International Bureau, FCC (February 28, 2002). Considering the secondary nature of the TRMM operation, NTIA's request is not a condition of this authorization. The Commission, however, urges all operators of earth stations accessing the Intelsat-15 space station in the 13.75 - 14.0 GHz frequency band to cooperate voluntarily with NASA in order to facilitate continued operation of the TRMM satellite.

**Attachment to Grant**  
**IBFS File Nos. SAT-LOA-20090410-00043 and**  
**SAT-AMD-20090528-00059**  
**Call Sign: S2789**

9. The operation of the Intelsat 15 space station in the 11.45-11.7 GHz band is limited to international operations in accordance with footnote NG104 to the United States Table of Frequency Allocations, 47 C.F.R. § 2.106 NG104, and footnote 2 of Section 25.202(a)(1) of the Commission's rules, 47 C.F.R. § 25.202(a)(1).

10. In connection with the provision of service in any particular country, Intelsat North America is obliged to comply with the applicable laws, regulations, rules, and licensing procedures of that country.

11. Intelsat North America shall maintain the Intelsat 15 space station within an east-west longitudinal station-keeping tolerance of  $\pm 0.05^\circ$  of its assigned  $85.15^\circ$  E.L. orbital location.

12. Intelsat North America's operation of Intelsat 15 at the  $85.15^\circ$  E.L. orbital location in the Ku- and extended Ku-band frequencies of 14.0-14.5 GHz (Earth-to-space), 10.95-11.20 GHz (space-to-Earth), 11.45-11.7 GHz (space-to-Earth), and 12.5-12.75 (space-to-Earth) is subject to the following conditions:

- a. Intelsat shall remain a signatory to the Public Services Agreement between Intelsat and the International Telecommunications Satellite Organization (ITSO) that was approved by the ITSO Twenty-fifth Assembly of Parties, as amended.
- b. No entity shall be considered a successor-in-interest to Intelsat under the ITSO Agreement for licensing purposes unless it has undertaken to perform the obligations of the Public Services Agreement approved by the Twenty-fifth Assembly of Parties, as amended.

13. With respect to the 13.75-14.0 GHz (Earth-to-space) frequency band, Intelsat North America submitted evidence that it had met the first three milestones required for a geostationary satellite pursuant to Section 25.164 of our rules, 47 C.F.R. § 25.164, and requested that the bond requirement pursuant to Section 25.165, 47 C.F.R. § 25.165, of our rules be reduced accordingly. Intelsat North America supplemented that information on October 30, 2009. Based on the evidence provided, the Satellite Division finds that Intelsat North America has satisfied the first three milestones (execute a binding non-contingent contract for construction, complete the critical design review, and commence construction) required for a geostationary satellite. The milestone and bond requirements are adjusted accordingly.

- a. Intelsat North America's space station at the  $85.15^\circ$  E.L. orbital location must be launched and placed into operation in accordance with the technical parameters and terms and conditions of this authorization within two years following the date of this authorization (November 25, 2011); and
- b. Intelsat must file a bond with the Commission in the amount of \$750,000, pursuant to the procedures set forth in Public Notice, DA 03-2602, 18 FCC Rcd 16283 (2003), within 30 days of the date of this grant (December 25, 2009).

Failure to meet either of these dates shall render this authorization null and void.

14. The Intelsat 15 space station must begin providing service at the  $85.15^\circ$  E.L. orbital location in the 14.00-14.50 GHz (Earth-to-space), 10.95-11.20 GHz (space-to-Earth), 11.45-11.70 GHz (space-to-Earth), and 12.5-12.75 GHz (space-to-Earth) frequency bands before the space station it is replacing, Intelsat 709, discontinues service at the  $85.15^\circ$  E.L. orbital location. Failure to meet this milestone shall render this authorization to operate in the 14.00-14.50 GHz (Earth-to-space), 10.95-11.20

**Attachment to Grant**  
**IBFS File Nos. SAT-LOA-20090410-00043 and**  
**SAT-AMD-20090528-00059**  
**Call Sign: S2789**

GHz (space-to-Earth), 11.45-11.70 GHz (space-to-Earth), and 12.5-12.75 GHz (space-to-Earth) frequency bands NULL and VOID.

15. The license term for this space station, Call Sign S2789, is fifteen years and will begin to run on the date that Intelsat North America certifies to the Commission that the satellite has been successfully placed into orbit and its operation fully conforms to the terms and conditions of this authorization. Intelsat North America is directed to file its certification with the Chief, Satellite Division, International Bureau, within 10 business days after the space station commences operations at its assigned location.

16. Intelsat North America is afforded thirty days from the date of release of this grant and authorization to decline this authorization as conditioned. Failure to respond within this period will constitute formal acceptance of the authorization as conditioned.

17. This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective immediately. Petitions for reconsideration under Section 1.106 or applications for review under Sections 1.115 of the Commission's rules, 47 C.F.R. §§ 1.106, 1.115, may be filed within thirty days of the date of the public notice indicating that this action was taken.

**TYPE OF SERVICE**

20. NATURE OF SERVICE: This filing is for an authorization to provide or use the following type(s) of service(s): Select all that apply:

- a. Fixed Satellite
- b. Mobile Satellite
- c. Radiodetermination Satellite
- d. Earth Exploration Satellite
- e. Direct to Home Fixed Satellite
- f. Digital Audio Radio Service
- g. Other (please specify)

21. STATUS: Choose the button next to the applicable status. Choose only one.

- Common Carrier
- Non-Common Carrier

- Using U.S. licensed satellites
- Using Non-U.S. licensed satellites

23. If applicant is providing INTERNATIONAL COMMON CARRIER service, see instructions regarding Sec. 214 filings. Choose one. Are these facilities:

- Connected to a Public Switched Network
- Not connected to a Public Switched Network
- N/A

24. FREQUENCY BAND(S): Place an 'X' in the box(es) next to all applicable frequency band(s).

- a. C-Band (4/6 GHz)
- b. Ku-Band (12/14 GHz)
- c. Other (Please specify upper and lower frequencies in MHz.)

Frequency Lower: Frequency Upper: (Please specify additional frequencies in an attachment)

**TYPE OF STATION**

25. CLASS OF STATION: Choose the button next to the class of station that applies. Choose only one.
- a. Fixed Earth Station
  - b. Temporary-Fixed Earth Station
  - c. 12/14 GHz VSAT Network
  - d. Mobile Earth Station
  - e. Geostationary Space Station
  - f. Non-Geostationary Space Station
  - g. Other (please specify)

26. TYPE OF EARTH STATION FACILITY:

- Transmit/Receive
  - Transmit-Only
  - Receive-Only
  - N/A
- "For Space Station applications, select N/A."

PURPOSE OF MODIFICATION

27. The purpose of this proposed modification is to: (Place an 'X' in the box(es) next to all that apply.)

- a --- authorization to add new emission designator and related service
- b --- authorization to change emission designator and related service
- c --- authorization to increase EIRP and EIRP density
- d --- authorization to replace antenna
- e --- authorization to add antenna
- f --- authorization to relocate fixed station
- g --- authorization to change frequency(ies)
- h --- authorization to add frequency
- i --- authorization to add Points of Communication (satellites & countries)
- j --- authorization to change Points of Communication (satellites & countries)
- k --- authorization for facilities for which environmental assessment and radiation hazard reporting is required
- l --- authorization to change orbit location
- m --- authorization to perform fleet management
- n --- authorization to extend milestones
- o --- Other (Please specify)

## ENVIRONMENTAL POLICY

28. Would a Commission grant of any proposal in this application or amendment have a significant environmental impact as defined by 47 CFR 1.1307? If YES, submit the statement as required by Sections 1.1308 and 1.1311 of the Commission's rules, 47 C.F.R. 1.1308 and 1.1311, as an exhibit to this application. A Radiation Hazard Study must accompany all applications for new transmitting facilities, major modifications, or major amendments.

Yes  No

ALIEN OWNERSHIP Earth station applicants not proposing to provide broadcast, common carrier, aeronautical en route or aeronautical fixed radio station services are not required to respond to Items 30–34.

29. Is the applicant a foreign government or the representative of any foreign government?

Yes  No

30. Is the applicant an alien or the representative of an alien?

Yes  No  N/A

31. Is the applicant a corporation organized under the laws of any foreign government?

Yes  No  N/A

32. Is the applicant a corporation of which more than one-fifth of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country?

Yes  No  N/A

<p>33. Is the applicant a corporation directly or indirectly controlled by any other corporation of which more than one-fourth of the capital stock is owned of record or voted by aliens, their representatives, or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country?</p>	<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A
<p>34. If any answer to questions 29, 30, 31, 32 and/or 33 is Yes, attach as an exhibit an identification of the aliens or foreign entities, their nationality, their relationship to the applicant, and the percentage of stock they own or vote.</p>	
<b>BASIC QUALIFICATIONS</b>	
<p>35. Does the Applicant request any waivers or exemptions from any of the Commission's Rules? If Yes, attach as an exhibit, copies of the requests for waivers or exceptions with supporting documents.</p>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<p>36. Has the applicant or any party to this application or amendment had any FCC station authorization or license revoked or had any application for an initial, modification or renewal of FCC station authorization, license, or construction permit denied by the Commission? If Yes, attach as an exhibit, an explanation of circumstances.</p>	<input checked="" type="radio"/> Yes <input type="radio"/> No

<p>37. Has the applicant, or any party to this application or amendment, or any party directly or indirectly controlling the applicant ever been convicted of a felony by any state or federal court? If Yes, attach as an exhibit, an explanation of circumstances.</p>	<input type="radio"/> Yes <input checked="" type="radio"/> No
<p>38. Has any court finally adjudged the applicant, or any person directly or indirectly controlling the applicant, guilty of unlawfully monopolizing or attempting unlawfully to monopolize radio communication, directly or indirectly, through control of manufacture or sale of radio apparatus, exclusive traffic arrangement or any other means or unfair methods of competition? If Yes, attach as an exhibit, an explanation of circumstances</p>	<input type="radio"/> Yes <input checked="" type="radio"/> No
<p>39. Is the applicant, or any person directly or indirectly controlling the applicant, currently a party in any pending matter referred to in the preceding two items? If yes, attach as an exhibit, an explanation of the circumstances.</p>	<input type="radio"/> Yes <input checked="" type="radio"/> No
<p>40. If the applicant is a corporation and is applying for a space station license, attach as an exhibit the names, address, and citizenship of those stockholders owning a record and/or voting 10 percent or more of the Filer's voting stock and the percentages so held. In the case of fiduciary control, indicate the beneficiary(ies) or class of beneficiaries. Also list the names and addresses of the officers and directors of the Filer.</p>	

<p>41. By checking Yes, the undersigned certifies, that neither applicant nor any other party to the application is subject to a denial of Federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Act of 1988, 21 U.S.C. Section 862, because of a conviction for possession or distribution of a controlled substance. See 47 CFR 1.2002(b) for the meaning of &amp;quot;party to the application&amp;quot; for these purposes.</p>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<p>42a. Does the applicant intend to use a non-U.S. licensed satellite to provide service in the United States? If Yes, answer 42b and attach an exhibit providing the information specified in 47 C.F.R. 25.137, as appropriate. If No, proceed to question 43.</p>	<input type="radio"/> Yes <input checked="" type="radio"/> No
<p>42b. What administration has licensed or is in the process of licensing the space station? If no license will be issued, what administration has coordinated or is in the process of coordinating the space station?</p>	
<p>43. Description. (Summarize the nature of the application and the services to be provided). (If the complete description does not appear in this box, please go to the end of the form to view it in its entirety.)</p> <div style="border: 1px solid black; padding: 5px;"> <p>Intelsat North America LLC files this amendment to provide cross-polarization information in Table S7 of FCC Form Schedule S. This information was inadvertently omitted from the pending application to launch and operate a Ku-band replacement satellite, to be known as Intelsat 15, at the 85.15 E.L. orbital location (File No. SAT-LOA-20090410-00043). All</p> </div>	

**43a. Geographic Service Rule Certification**

By selecting A, the undersigned certifies that the applicant is not subject to the geographic service or geographic coverage requirements specified in 47 C.F.R. Part 25.

A

B

By selecting B, the undersigned certifies that the applicant is subject to the geographic service or geographic coverage requirements specified in 47 C.F.R. Part 25 and will comply with such requirements.

C

By selecting C, the undersigned certifies that the applicant is subject to the geographic service or geographic coverage requirements specified in 47 C.F.R. Part 25 and will not comply with such requirements because it is not feasible as a technical matter to do so, or that, while technically feasible, such services would require so many compromises in satellite design and operation as to make it economically unreasonable. A narrative description and technical analysis demonstrating this claim are attached.

**CERTIFICATION**

The Applicant waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. The applicant certifies that grant of this application would not cause the applicant to be in violation of the spectrum aggregation limit in 47 CFR Part 20. All statements made in exhibits are a material part hereof and are incorporated herein as if set out in full in this application. The undersigned, individually and for the applicant, hereby certifies that all statements made in this application and in all attached exhibits are true, complete and correct to the best of his or her knowledge and belief, and are made in good faith.

44. Applicant is a (an): (Choose the button next to applicable response.)

- Individual
- Unincorporated Association

## FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

**THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.**

**43. Description. (Summarize the nature of the application and the services to be provided.)**

Intelsat North America LLC files this amendment to provide cross-polarization information in Table S7 of FCC Form Schedule S. This information was inadvertently omitted from the pending application to launch and operate a Ku-band replacement satellite, to be known as Intelsat 15, at the 85.15 E.L. orbital location (File No. SAT-LOA-20090410-00043). All other information in the pending application remains unchanged and is incorporated herein by reference.
