

Attachment to Receiving Beam Section of Schedule S

IBFS File No. SAT-LOA-20170301-00028

Call Sign S2993

On June 22, 2017, the FCC's International Bureau sent a letter to The Boeing Company ("Boeing").¹ Question 6 of this letter requested, *inter alia*, the minimum G/T for each inter-satellite link ("ISL") receiving beam. The form Schedule S does not include an input field for minimum G/T. The values for the ISL receiving beams are therefore provided in the table below using the same beam identification numbers ("IDs") that are included in the "Receiving Beam" section of the Schedule S.

Beam ID	Min G/T, dB/K
X4LO	12.0
X5LO	12.0
X4RO	12.0
X5RO	12.0
X6LO	16.5
X7LO	16.5
X6RO	16.5
X7RO	16.5

¹ Letter from Jose P. Albuquerque, Chief, Satellite Division, to Bruce A. Olcott, Jones Day, IBFS File No. SAT-LOA-20170301-00028 (Call Sign S2993) (April 11, 2017).
