Call Sign S2783
April 6, 2009**

The petition of Inmarsat plc (Inmarsat), IBFS File No. SAT-PPL-20090107-00003 (as amended by IBFS File No. SAT-APL-20090115-00005), pursuant to Section 25.137 of the Commission's rules, 47 C.F.R. § 25.137, to modify the "ISAT List" to include the Inmarsat 3F4 satellite, Call Sign S2783, at the 54° W.L. orbital location IS GRANTED.¹ Accordingly, any U.S.-licensed earth station with an ISAT authorization is permitted to access the Inmarsat 3F4 satellite at the 54° W.L. orbital location without additional authorization from the Commission, provided that the earth station complies with the Commission's technical requirements and operates under the conditions on its license. The grant of this petition is subject to the technical specifications set forth in Inmarsat's petition, the Commission's rules, and the following conditions:

1. Authority is granted pursuant to Section 25.210(j) of the Commission's rules, to permit operations of earth stations with the Inmarsat 3F4 satellite, maintained at ± 0.10 degree of the 54° W.L., subject to the condition that this waiver and the operations it permits shall terminate in the event that a satellite is launched into a location such that its stationkeeping volume would overlap the Inmarsat 3F4 satellite's ± 0.10 degree stationkeeping volume, but would not overlap the Inmarsat 3F4 satellite's $\pm 0.05^\circ$ degree stationkeeping volume, unless Inmarsat has successfully coordinated its physical operations with those of the other spacecraft.
2. Operations via the Inmarsat 3F4 satellite using a north-south inclination of as much as 2.7 degrees are granted, conditioned on operations of the 3F4 complying with the inclined orbit requirements set forth in Sections 25.280(b)(1)-(3) of the Commission's rules.
3. Licensees must comply with the terms of any L-band operator-to-operator coordination agreement. In the absence of a continuing L-band operator-to-operator coordination agreement, operations of METs in the 1525-1559 and 1626.5-1660.5 MHz bands will be on a non-harmful interference basis until a future operator-to-operator agreement is concluded. In this instance, each licensee must notify the other operators in these frequency bands that it will be operating on a non-harmful interference basis. Each licensee must notify its customers that its operations are on a non-harmful interference basis.
4. Inmarsat is afforded 30 days from the date of the release of this authorization to decline it, as conditioned. Failure to respond within this period will constitute formal acceptance of the authorization, as conditioned.
5. This grant is issued pursuant to the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective immediately. Petitions for reconsideration under Section 1.106, 1.116, 47 C.F.R. §§ 1.106, 1.116, may be filed within 30 days of the date of the public notice stating this action was taken.

¹ The Commission previously authorized Inmarsat to access the U.S. market via the I3F4 satellite from the 142° W.L. orbital location and included the I3F4 satellite on the ISAT List at this orbital location. See Inmarsat, Inc., Order, DA 08-2323, 23 FCC Rcd 15268 (Int'l Bur. rel. Oct. 21, 2008).
