Re: File No. SAT-ASG-20010302-00017 et al.

Dear Ms. Salas:

The attached is filed as a supplement to the above-referenced applications in response to questions by Commission staff in phone conversations November 15 – 19.¹

Please contact the undersigned with any questions.

Very truly yours,

David S. Konczal

Attachment

Document #: 1185462 v.1

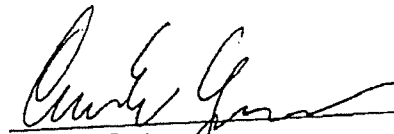

¹ 47 C.F.R. § 1.1204(a)(10).

Supplement to Application

Mobile Satellite Ventures
File No. SAT-ASG-20010302-00017

1. The application does not propose to modify the provision of Telemetry, Tracking and Control for the AMSC-1 satellite. Those services will continue to be provided from the United States, at least until an application to operate otherwise is filed with and approved by the Commission.
2. The new licensee will retain the ability, through actions initiated using its United States facilities without any involvement by personnel in Canada, to prevent any mobile earth terminal licensed by the Commission from communicating using the new licensee's system (regardless of whether the system is using either the current Motient satellite or the current TMI satellite).
3. The new licensee is committed, to the extent required by the Commission pursuant to its statutory authority (e.g., Section 706 of the Communications Act, 47 USC §606), to reestablish in the United States those communications ground segment facilities or functions that are to be relocated to Canada as part of the proposed consolidation of the Motient and TMI facilities. As described in its application, MSV's next-generation system will include similar communications ground segment facilities. Such facilities will be located in the United States.

The undersigned certifies that the foregoing is true, complete, and correct to the best of his knowledge and belief.
