Re: Motient Services Inc. and Mobile Satellite Ventures Subsidiary LLC Application  
for Assignment of Licenses and For Authority to Launch and Operate a Next-  
Generation Mobile Satellite Service System: Lead File No. SAT-ASG-  
20010302-00017

Dear Ms. Roman Salas:

Please accept this letter as notification that Waveburst Communications, Inc, pursuant to Public Notice dated March 19, 2001, supports the above-captioned application of Motient Services Inc. ("Motient") and Mobile Satellite Ventures Subsidiary LLC ("MSV Sub") filed on March 2, 2001.

Waveburst Communications has been an applications service provider for TMI Communications since October 2000. We are based in San Jose, CA and are providing products and services primarily to trucking and marine industries. As an applications service provider, it is our responsibility to develop the interface and applications software which allows us to sell a complete satellite communications package that meets our customers requirements. For the past six months, we have spent several hundreds of thousands of dollars developing various software capabilities. We are beginning to market these packages and are receiving an enthusiastic reception from our customers because we are able to offer a very complete solution at extremely attractive prices. It is our opinion that the merger of Motient and TMI Communications will provide further economies of scale that can be passed on to our customer base thereby opening new channels for mobile communications which were previously prohibitively expensive.

For this reason, we believe that you should grant the above-captioned application.

Very truly yours,

*Ed Neubauer*  
Ed Neubauer  
President
