Re: Assignment of GE-23 Satellite to GE International Holdings Inc.; ITU
Cost Recovery Commitment for USASAT-14K

Dear Mr. Nelson:

On March 29, 2007, GE International Holdings Inc. ("GE") consummated its acquisition of the GE-23 satellite (f.k.a. AMC-23) located at the 172° E.L. orbital location from SES Americom, Inc. See File No. SAT-ASG-20070214-00034. On April 3, 2007, GE filed a letter with the Commission notifying the agency that GE had changed the name of the AMC-23 satellite to GE-23. The Federal Communications Commission call sign for the GE-23 satellite is S2610.

By this letter, GE confirms that it is aware of and unconditionally accepts its responsibility to pay any International Telecommunications Union ("ITU") cost recovery fees associated with filings submitted by the FCC to the ITU in relation to the GE-23 satellite (or any other satellite that GE may acquire or for which it may apply at a later date), including the USASAT-14K designation. GE will pay any such fees promptly following a request therefor.

The designated contact person for the payment of the ITU cost recovery fees is as follows:

Frank Ertl
GE Equity
