

File No. SAT-ASG-20200123-00012 (Call Sign S2181)

From: Karl Kensinger <Karl.Kensinger@fcc.gov>

To: Jeanette Spriggs; Eleanor Lott

Cc: Kerry Murry; Steve Duall

Please include this email as an attachment in the internal notes for the referenced application in IBFS.

This application is related to another application, **SAT-ASG-20191220-00150**. As a result of difficulties in administering the unique joint license for this satellite, Call Sign S2181, IB Staff (Kensinger) requested that the applicant withdraw that application and resubmit the request in the format of the current application. Specifically, the name of the licensee as specified at the time that **SAT-ASG-20191220-00150** was filed was incorrect. This was corrected by subsequent administrative action, and this made possible the filing of the instant application in a format that will maintain the correct licensee name.

The substance of this pro forma transaction is not different between the two applications, so the effective date for the grant is specified as of the date, December 23, 2019, one business day after the filing of **SAT-ASG-20191220-00150**.
