Re: SATELLITE RADIO APPLICATIONS ACCEPTED FOR FILING

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations and its Policies. Final action will not be taken on any of these applications earlier than 30 days following the date of this notice. 47 U.S.C. § 309(b). All applications accepted for filing will be assigned Call Signs, or other unique station identifiers. However, these assignments are for administrative purposes only and do not in any way prejudice Commission action.

A unique station identifier consisting of the letter "E" followed by a six digit number will be assigned to each new domestic satellite earth station. This unique identifier will administratively identify such earth stations.
