MAIL BRANCH

To: The Commission

Our company, Seavey Engineering Associates, Inc., Cohasset, Massachusetts designs and manufactures satellite earth station equipment. Our firm has provided Satellite CD Radio with demonstration equipment which has verified the technical feasibility of their proposed service.

We wish to support the applications by Satellite CD Radio before the Commission for a license and approval of this new service.

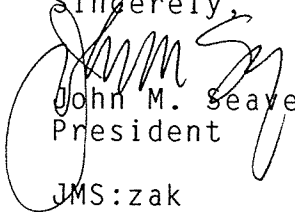

As manufacturers of satellite equipment, your approval will create new jobs for employees of our company and others.

Your approval will also enhance the technical competitiveness of American industry by encouraging this new and innovative technology.

The demonstrations of this equipment have entirely proven the technical performance and there is no doubt that the technology offered by Satellite CD Radio can be readily accomplished in a low-cost consumer product.

Thank you for your consideration.

Sincerely,

  
John M. Seavey  
President
