PETITION TO DENY

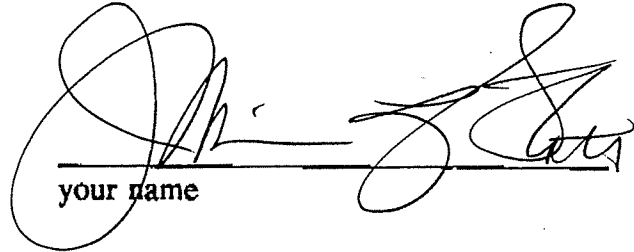

Opposition Comments of Jan Stott - General Manager

KVST Radio, of Huntsville, Texas 77340 pursuant
to the Public Notice released October 13, 1992, herewith submits comments in opposition to
the allocation of 2310-2360 mhz for terrestrial or satellite broadcast and the application of
any party for the use of that frequency band including Satellite CD Radio, Inc. (CD Radio)
which is under consideration by the Commission in the above referenced proceeding. In
support, I submit the following:

The addition of Digital Audio Radio Satellite Systems will be disasterous
for small market radio stations. The economic downturn and the over
population of radio signals has already made it very difficult for small
market stations to be profitable. Addition of digital audio would most
likely mean the demise of small independent owned radio station. I urge the
commission to deny these petitions.

AFFIDAVIT

I, Janice Stott, hereby attest to the accuracy of the allegations of fact contained in the Petition to deny, of which I have personal knowledge.
