Re: File Nos. 54-DSS-P/L-90  
55-DSS-P-90

Dear Sir:

Brevard Community College is very pleased to support the application of Norris Satellite Communications, Inc. to construct, launch and operate a communications satellite in the domestic fixed satellite service. The granting of the application by Norris Satellite Communications by the Commission would serve the public interest by promoting the use of a new frequency band, reducing congestion in the C- and Ku-bands, and provide new service options. We feel that the granting of this application would be of great benefit not only to the State of Florida but the nation as well.

Brevard Community College supports the application of Norris Satellite Communications, Inc. without reservations and would be pleased to provide additional information if requested.

Sincerely,

  
Maxwell C. King  
President
