SECTION 1.65 STATEMENT OF VIRTUAL GEOSATELLITE, LLC

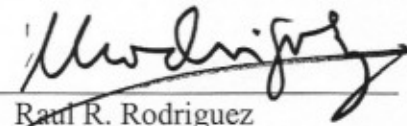

Virtual Geosatellite, LLC ("Virtual Geo"), pursuant to Section 1.65 of the Commission's Rules, 47 C.F.R. § 1.65, hereby reports minor changes to its ownership structure and provides updated company information.

As reported to the Commission on December 6, 2001 and until recently, Virtual Geo was 75% owned by Ellipso, Inc. ("Ellipso") and 25 % owned by Sahagen Satellite Technology Group, LLC ("Sahagen"). Sahagen has now agreed to return to the Virtual Geo's treasury its shares of the company and to withdraw its representative from the Virtual Geo Board of Managers. Virtual Geo's Board of Managers has accepted the return of Sahagen's shares to the Virtual Geo treasury and accepted the withdrawal of Sahagen's representative from the Virtual Geo Board of Managers. Ellipso now owns and controls 100% of the shares of Virtual Geo. This does not represent a change in the control of Virtual Geo because David Castiel has been at all times during the pendency of referenced application and continues to be the beneficial owner and controlling principal of both Ellipso and Virtual Geo.

A revised version of Exhibit No. 2 to the FCC Form 312 application that Virtual Geo filed in connection with its above-captioned application is attached for ease of reference. The revised FCC Form 312 also contains applicant's updated address and contact information.

Respectfully submitted,

VIRTUAL GEOSATELLITE, LLC
