Ex Parte Notice

Dear Ms. Dortch:

On January 21, 2015, Anders Johnson, President, EchoStar Satellite Services, L.L.C., Jennifer A. Manner, Vice President, Regulatory Affairs, EchoStar Operating Corporation, (collectively, "EchoStar") and the undersigned met with the following representatives of the International Bureau: Deputy Bureau Chief Troy Tanner, Stephen Duall, Karl Kensinger, Lynne Montgomery, Cindy Spiers, and Merissa Velez.

EchoStar discussed the milestone status of the five satellite authorizations referenced above, which were surrendered in 2011. EchoStar explained that for each of those authorizations, the company had entered into a binding, non-contingent satellite manufacturing contract with Loral, and EchoStar explained how specific aspects of those contracts satisfy the necessary milestone showing. EchoStar also discussed how, for three of the satellites, the company had submitted a sufficient showing to meet the second milestone, completion of critical design review. EchoStar urged the Commission to find that the company satisfied these milestones and to mitigate its bond obligations accordingly.

Pursuant to Sections 1.1206 of the Commission's Rules, this letter is being filed electronically with the Commission. Should you have any questions regarding this presentation, please contact the undersigned.
