Re: *Identification of Satellites Co-Located with DIRECTV 7S*
File Nos. SAT-LOA-20030611-00115 et al., Call Sign S2455

Dear Ms. Dortch:

DIRECTV Enterprises, LLC, by its attorneys, hereby provides the written statement discussed in paragraph 30 of the authorization for the above referenced satellite. See *DIRECTV Enterprises, LLC*, 19 FCC Rcd. 7754 (Int'l Bur. 2004). Specifically, that paragraph requires a written statement identifying satellites that will be located at the assigned orbital location of DIRECTV 7S, or assigned in the vicinity of that location such that the station-keeping volume of the respective satellites might overlap, and describing the measures that will be taken to prevent in-orbit collisions with such satellites.

DIRECTV 7S is licensed to operate at 119.2° W.L., with $\pm 0.05^\circ$ longitudinal station-keeping. DIRECTV is not aware of any other FCC- or non-FCC-licensed spacecraft that are operational or planned to be deployed at or near this orbital location whose station-keeping volume would overlap that of DIRECTV 7S.

To the extent another spacecraft might approach the assigned location of this satellite in the future, DIRECTV would coordinate directly with the operator of such spacecraft with respect to any actions that would be appropriate at such time to avoid any risk of collision.
