ERRATUM

Released: March 9, 2007

By the Chief, Satellite Division, International Bureau:

1. On March 2, 2007, the Commission released a Memorandum Opinion and Order, FCC 07-11, in the above-captioned proceeding. This Erratum corrects the second sentence of paragraph 2 to read as follows:

“On January 5, 2004, the Bureau authorized Rainbow to operate a fifth Ka-band satellite at the 77° W.L. orbital location.”

2. This Erratum also corrects paragraph 13 to read as follows:

”Because Rainbow, by its own admission, failed to comply with its second milestone, to complete Critical Design Review, Rainbow’s Ka-band authorizations are null and void. Accordingly, the five orbital locations previously assigned to Rainbow, 62° W.L., 71° W.L., 77° W.L., 119° W.L. and 129° W.L., are now available for reassignment.”
