Re: SBS-4
Final Orbit Parameters

Dear Ms. Dortch:

PanAmSat Licensee Corp. ("PanAmSat"), by its counsel, hereby notifies the Commission of the final orbit parameters for SBS-4. PanAmSat completed end-of-life maneuvers for the satellite on September 29, 2005, resulting in an orbital position with an apogee of 470 km above the geostationary orbit, a perigee of 420 km above the geostationary orbit, and an inclination of 9.11476 degrees. The fuel tanks of the satellite have been purged, all the electronics have been powered down and disabled, and all communications with the satellite have ceased.

Please direct any questions with respect to this matter to the undersigned.

Respectfully submitted,

Joseph A. Godles
Attorney for PanAmSat Licensee Corp.
