Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”), by counsel, and at the request of the International Bureau staff, hereby clarifies and supplements its above-referenced pending application to launch and operate Intelsat 29e, a replacement satellite with new frequencies, at 50.0° W.L. The materials accompanying this letter provide the Commission with the appropriate beam pattern information for the G5HD beam and correct two small typographical errors in the Schedule S with respect to the labeling of the U1VU and U1HU beams.

Please contact the undersigned with any questions.

Sincerely,
