Re: Skynet Satellite Corporation – Milestone Showing for
Telstar 12 Vantage Satellite ("Telstar 12V") at 15° W.L.;
Supplemental Submission

REQUEST FOR CONFIDENTIAL TREATMENT

Dear Mr. Albuquerque:

Skynet Satellite Corporation ("Skynet") previously filed an application for authority to launch and operate Telstar 12V,¹ and on October 28, 2014, Skynet filed a milestone showing for Telstar 12V. Also on October 28, Skynet submitted to you a request for confidential treatment that was accompanied by certain materials Skynet had redacted from the publicly-filed version of its milestone showing.

The October 28 confidential package included a non-redacted copy of the contract for construction of Telstar 12V that was entered into between Telesat Luxembourg S.à r.l., a sister corporation of Skynet, and Astrium S.A., now known as Airbus Defence & Space. It has come to Skynet's attention that certain Attachments to the contract were inadvertently not included in the confidential package. Those Attachments, for which confidential treatment also is requested in accordance with the terms and showings of the October 28 request for confidential treatment, are included with this letter.

¹ File Number: SAT-LOA-20141010-00107.

In addition, Skynet understands that the copies of photographs of the satellite under construction that it submitted are not in a condition to be readable by the Commission staff. Better copies of those photographs are attached.

We regret any inconvenience that may have been caused by omissions in the materials first submitted.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'J. Godles', written over the typed name and title.

Joseph A. Godles
Counsel for Skynet Satellite Corporation
