Re: Clarification to Application of Intelsat License LLC to Launch and Operate Intelsat 33e, a Replacement Satellite with New Frequencies, at 60.0° E.L., File No. SAT-LOA-20150327-00016 (Call Sign S2939)

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”), by counsel, provides this clarification to its above-referenced pending application to launch and operate Intelsat 33e, a replacement satellite with new frequencies at 60.0° E.L. Specifically, Intelsat corrects information regarding the construction contract. In the application, Intelsat mistakenly indicated that Intelsat 33e is part of the multiple satellite construction contract between Intelsat and Boeing Satellite Systems, Inc. (“Boeing”) submitted as part of Intelsat’s application to launch and operate Intelsat 27.¹ In fact, Intelsat 33e is included in a different multiple satellite construction contract with Boeing. Intelsat will submit the relevant contract in the future to the extent required by FCC rules.

Please contact the undersigned with any questions.

Sincerely,

/s/ Jennifer D. Hindin

Jennifer D. Hindin
Counsel to Intelsat License LLC
