ATTACHMENT TO GRANT
IBFS File No. SAT-LOA-20150327-00016

IBFS File No(s):	SAT-LOA-20150327-00016	<p>GRANTED – With Conditions</p>  <p>International Bureau Satellite Division</p>
Licensee/Grantee:	Intelsat License LLC	
Call Sign:	S2939	
Satellite Name:	Intelsat 33e	
Orbital Location: (required station-keeping tolerance)	60.0° E.L. (+/- 0.05 degrees east/west)	
Administration:	United States of America	
Nature of Service:	Fixed-Satellite Service (FSS)	
Scope of Grant:	Authority to construct, deploy, and operate a C-, Ku-, and Ka-band geostationary orbit space station	
Service Area(s):	See Item S6 of Schedule S and accompanying .gxt files	
Frequencies:	3625–4200 MHz (space-to-Earth) 10.95-11.2 GHz (space-to-Earth) 11.45-11.7 GHz (space-to-Earth) 11.7-12.2 GHz (space-to-Earth) 12.5-12.6 GHz (space-to-Earth) 18.3-20.2 GHz (space-to-Earth) 5850-6425 MHz (Earth-to-space) 6425-6725 MHz (Earth-to-space) 13.75-13.85 GHz (Earth-to-space) 14.0-14.5 GHz (Earth-to-space) 17.3-17.8 GHz (Earth-to-space) 28.1-30.0 GHz (Earth-to-space)	
<p>Operations under this grant must comport with the legal and technical specifications set forth by the applicant or petitioner and with the Federal Communication Commission’s rules not waived herein. This grant is also subject to the following conditions:</p> <ol style="list-style-type: none"> 1. Intelsat must prepare the necessary information, as may be required, for submission to the International Telecommunication Union (ITU) to initiate and complete the advance publication, coordination, due diligence, and notification process of this space station, in accordance with the ITU Radio Regulations. Intelsat will be held responsible for all cost-recovery fees associated with ITU filings. No protection from interference caused by radio stations authorized by other administrations is guaranteed unless coordination and notification procedures are timely completed or, with respect to individual administrations, coordination agreements are successfully completed. Any radio station authorization for which coordination has not been completed may be subject to additional terms and conditions as required to effect coordination of the frequency assignments of other administrations. <i>See</i> 47 C.F.R. § 25.111(b). 2. In connection with the provision of service in any particular country, Intelsat is obliged to comply with the applicable laws, regulations, rules, and licensing procedures of that country. 3. Intelsat must operate Intelsat 33e at the 60.0° E.L. orbital location in compliance with all existing or future coordination agreements for this location. 4. Intelsat must maintain the Intelsat 33e space station within an east/west longitudinal station-keeping tolerance of ± 0.05 degrees of the 60.0° E.L. orbital location. 5. Intelsat’s request for a waiver of Section 25.210(f) of the Commission’s rules, 47 C.F.R. 25.210(f), in connection with Intelsat 33e’s use of the 12.5–12.6 GHz and 13.75–13.85 GHz bands is 		

ATTACHMENT TO GRANT
IBFS File No. SAT-LOA-20150327-00016

GRANTED. Section 25.210(f) requires that FSS space stations employ full frequency re-use either through orthogonal polarization in the same beam and/or the use of spatially independent beams. The purpose of the rule is to ensure that space stations maximize the use of the spectrum. Intelsat states that the launch mass constraint on the satellite would have been exceeded had Intelsat included the necessary hardware that would have permitted full frequency reuse in these bands, and that this spectrum consists of only 2.6% of Intelsat 33e's bandwidth. Granting Intelsat a waiver of Section 25.210(f) would not prevent other licensees' use of the same spectrum through orthogonal polarization, preserving the maximum utilization of the spectrum.

6. Intelsat's request for a waiver of Section 25.210(i)(1) of the Commission's rules, 47 C.F.R. § 25.210(i)(1), is GRANTED. Section 25.210(i)(1) requires space station antennas in the FSS to be designed to meet a cross-polarization isolation of at least 30 dB within the primary coverage area of the antenna. Section 25.210(i)(1) was eliminated as part of a recent Commission-level order streamlining Part 25 rules governing satellite communications, but the rule change is not yet effective.¹ The same public interest rationales for elimination of the rule justify a waiver of the rule in this instance.²
7. Intelsat's operations of Intelsat 33e at the 60.0° E.L. orbital location in the 3700-4200 MHz (space-to-Earth), 5850-6425 MHz (Earth-to-space), 10.95-11.2 GHz (space-to-Earth), and 14.0-14.5 GHz (Earth-to-space) frequency bands are subject to the following additional conditions:
 - a. Intelsat shall remain a signatory to the Public Services Agreement between Intelsat and the International Telecommunications Satellite Organization (ITSO) that was approved by the ITSO Twenty-fifth Assembly of Parties, as amended.
 - b. No entity shall be considered a successor-in-interest to Intelsat under the ITSO Agreement for licensing purposes unless it has undertaken to perform the obligations of the Public Services Agreement approved by the Twenty-fifth Assembly of Parties, as amended.
8. The operation of Intelsat 33e and associated earth stations must comply with: (i) the applicable uplink limits in Sections 25.138, 25.211, 25.218, 25.221, 25.222, 25.226, and/or 25.227 of the Commission's rules in the 5925-6425 MHz, 13.75-13.85 GHz, 14.0-14.5 GHz, 28.35-28.6 GHz, and 29.25-30.0 GHz frequency bands; (ii) the applicable downlink limits in Sections 25.138 and/or 25.212 of the Commission's rules in the 10.95-11.2 GHz, 11.45-11.7 GHz, 18.3-18.8 GHz, and 19.7-20.2 GHz frequency bands. These limits cannot be exceeded unless Intelsat coordinates any non-conforming operation with the operations of U.S.-licensed GSO space stations within 6 degrees of 60.0° E.L. Non-conforming operation must also be coordinated with respect to those operations of non-U.S.-licensed space stations within 6 degrees of 60.0° E.L. involving approved communications with U.S.-licensed earth stations.
9. The FSS operations of Intelsat 33e and associated earth stations must comport with the parameters of the Appendix 30/30A satellite network USABSS-42 filed with the ITU for operation in the 11.7-12.2 GHz (space-to-Earth) and the 17.3-17.8 GHz (Earth-to-space) frequency bands and any additional conditions resulting from the coordination of this network.
10. Operations of Intelsat 33e in the 6650-6675.2 MHz (Earth-to-space) and 14.47-14.5 GHz (Earth-to-space) frequency bands are subject to the terms of footnotes 5.149 and US342 to the United States Table of Frequency Allocations, 47 C.F.R. § 2.106, 5.149, US342, which urge applicants to take all practicable steps to protect the radio astronomy service from harmful interference.
11. Pursuant to footnote US337 of the United States Table of Frequency Allocations, 47 C.F.R. § 2.106, US337, any earth station in the United States and its possessions communicating with the Intelsat

¹ *Comprehensive Review of Licensing and Operating Rules for Satellite Services*, IB Docket No. 12-267, Second Report and Order, FCC 15-167 (Dec. 17, 2015) (*Part 25 Second Report and Order*) (not yet published in the Federal Register).

² *Part 25 Second Report and Order* at paras. 331-333.

ATTACHMENT TO GRANT
IBFS File No. SAT-LOA-20150327-00016

33e space station in the 13.75-13.85 GHz (Earth-to-space) frequency band is required to coordinate through the National Telecommunications and Information Administration (NTIA) Interdepartment Radio Advisory Committee (IRAC) Frequency Assignment Subcommittee (FAS) to minimize interference to the National Aeronautics and Space Administration (NASA) Tracking and Data Relay Satellite System, including manned space flight.

12. In the 13.75-13.85 GHz (Earth-to-space) frequency band, receiving space stations in the fixed satellite service must not claim protection from radiolocation transmitting stations operating in accordance with footnote US356 the United States Table of Frequency Allocations, 47 C.F.R. § 2.106, US356.
13. Operations of any earth station in the United States and its possessions communicating with the Intelsat 33e space station in the 13.75-13.85 GHz (Earth-to-space) frequency band must comply with footnote US356 to the United States Table of Frequency Allocations, 47 C.F.R. § 2.106, US356, which specifies a mandatory minimum antenna diameter of 4.5 meters and non-mandatory minimum and maximum equivalent isotropically radiated powers (e.i.r.p.). Operations of any earth station located outside the United States and its possessions communicating with the Intelsat 33e space station in the 13.75-13.85 GHz (Earth-to-space) frequency band must be consistent with No. 5.502 to the ITU Radio Regulations, which allows a minimum antenna diameter of 1.2 meters for earth stations of a geostationary satellite orbit network and specifies mandatory power limits.
14. Operations of any earth station in the United States and its possessions communicating with the Intelsat 33e space station in the 13.77-13.78 GHz (Earth-to-space) frequency band must comply with footnote US357 to United States Table of Frequency Allocations, 47 C.F.R. § 2.106, US357, which specifies that the maximum e.i.r.p. density of emissions not exceed 71 dBW in any 6 MHz band within the 13.77-13.78 GHz (Earth-to-space) frequency band for communications with a space station in geostationary-satellite orbit.³ Operations of any earth station located outside the United States and its possessions communicating with the Intelsat 33e space station in the 13.77-13.78 GHz (Earth-to-space) frequency band must comply with No. 5.503 of the ITU Radio Regulations, which specifies a required maximum e.i.r.p. density of emissions (limit is dependent on antenna diameter) for communications with a space station in geostationary-satellite orbit.
15. Intelsat must coordinate its downlink operations in the 18.3-20.2 GHz (space-to-Earth) frequency band with U.S. Federal systems, including Federal operations to earth stations in foreign countries, in accordance with footnote US334 to the United States Table of Frequency Allocations, 47 C.F.R. § 2.106, US334.
16. Intelsat must coordinate its operations in the 29.1-29.5 GHz band with feeder link operations of non-geostationary satellite systems operating in that band, pursuant to Section 25.278 of the Commission's rules, 47 C.F.R. § 25.278.
17. Intelsat 33e must begin providing service at the 60.0° E.L. orbital location in the 3625-4200 MHz (space-to-Earth), 5850-6425 MHz (Earth-to-space), 10.95-11.2 GHz (space-to-Earth), 11.45-11.7 GHz (space-to-Earth), and 14.0-14.5 GHz (Earth-to-space) frequency bands before the satellite it is replacing, Intelsat 904 (Call Sign S2408), discontinues service at the 60.0° E.L. orbital location. Failure to meet this milestone will render this authorization to operate in these frequency bands NULL and VOID.
18. Intelsat seeks to operate Intelsat 33e in the 6425-6725 MHz (Earth-to-space), 11.7-12.2 GHz (space-to-Earth), 12.5-12.6 GHz (space-to-Earth), 13.75-13.85 GHz (Earth-to-space), 17.3-17.8 GHz (Earth-to-space), 18.3-20.2 GHz (space-to-Earth), and 28.1-30.0 GHz (Earth-to-space) frequency bands that are not authorized on the Intelsat 904 space station. As part of its application, Intelsat

³ Footnote US357 places a restriction on FSS earth station operations in order to protect government operations in the band, including manned space flight. 47 C.F.R. § 2.106, US357.

**ATTACHMENT TO GRANT
IBFS File No. SAT-LOA-20150327-00016**

submitted evidence that it had met the first milestone for the additional frequencies it seeks to include in the Intelsat 33e space station and requested a reduction in the required bond, pursuant to Section 25.165 of the Commission's rules, 47 C.F.R. § 25.165. Based on the evidence provided, the Satellite Division finds that Intelsat has satisfied the first milestone (execute a binding non-contingent contract for construction) required for a geostationary satellite. As a result, the milestone and bond requirements are reduced. Accordingly, this grant of authority in the 6425-6725 MHz (Earth-to-space), 11.7-12.2 GHz (space-to-Earth), 12.5-12.6 GHz (space-to-Earth), 13.75-13.85 GHz (Earth-to-space), 17.3-17.8 GHz (Earth-to-space), 18.3-20.2 GHz (space-to-Earth), and 28.1-30.0 GHz (Earth-to-space) frequency bands will become NULL and VOID, with no further action on the Commission's part, if Intelsat does not meet the following requirements:

- a. Intelsat must file a bond with the Commission in the amount of \$2,250,000, pursuant to the procedures set forth in Public Notice, DA 03-2602, 18 FCC Rcd 16283 (2003), within 30 days of this grant (March 28, 2016);
 - b. Complete the Critical Design review within one year (February 25, 2017);
 - c. Commence construction within two years (February 25, 2018); and
 - d. Launch and begin operations within four years (February 25, 2020).
19. The license term for the space station is 15 years and will begin on the date that Intelsat certifies to the Commission that Intelsat 33e has been successfully placed into orbit and its operations fully conform to the terms and conditions of this authorization. Intelsat is directed to file its certification of commencement of operation with the Commission within five business days of Intelsat 33e being placed into operation at the 60.0° E.L. orbital location.

Licensee/grantee is afforded thirty (30) days from the date of release of this action to decline the grant as conditioned. Failure to respond within this period will constitute formal acceptance of the grant as conditioned.

This action is taken pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective upon release.

Station licenses are subject to the conditions specified in Section 309(h) of the Communications Act of 1934, as amended, 47 U.S.C. § 309(h).

26. TYPE OF EARTH STATION FACILITY: Not Applicable

PURPOSE OF MODIFICATION

27. The purpose of this proposed modification is to: (Place an "X" in the box(es) next to all that apply.) Not Applicable

ENVIRONMENTAL POLICY

28. Would a Commission grant of any proposal in this application or amendment have a significant environmental impact as defined by 47 CFR 1.1307? If YES, submit the statement as required by Sections 1.1308 and 1.1311 of the Commission's rules, 47 C.F.R. §§ 1.1308 and 1.1311, as an exhibit to this application. A Radiation Hazard Study must accompany all applications for new transmitting facilities, major modifications, or major amendments. Yes No

ALIEN OWNERSHIP

Earth station applicants not proposing to provide broadcast, common carrier, aeronautical en route or aeronautical fixed radio station services are not required to respond to Items 30-34.

29. Is the applicant a foreign government or the representative of any foreign government?	<input type="radio"/> Yes <input checked="" type="radio"/> No
30. Is the applicant an alien or the representative of an alien?	<input type="radio"/> Yes <input checked="" type="radio"/> No <input type="radio"/> N/A
31. Is the applicant a corporation organized under the laws of any foreign government?	<input type="radio"/> Yes <input checked="" type="radio"/> No <input type="radio"/> N/A
32. Is the applicant a corporation of which more than one-fifth of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country?	<input type="radio"/> Yes <input checked="" type="radio"/> No <input type="radio"/> N/A
33. Is the applicant a corporation directly or indirectly controlled by any other corporation of which more than one-fourth of the capital stock is owned of record or voted by aliens, their representatives, or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country?	<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A
34. If any answer to questions 29, 30, 31, 32 and/or 33 is Yes, attach as an exhibit an identification of the aliens or foreign entities, their nationality, their relationship to the applicant, and the percentage of stock they own or vote.	

BASIC QUALIFICATIONS

35. Does the Applicant request any waivers or exemptions from any of the Commission's Rules?
If Yes, attach as an exhibit, copies of the requests for waivers or exceptions with supporting documents.

Yes No

EngineeringStatement

36. Has the applicant or any party to this application or amendment had any FCC station authorization or license revoked or had any application for an initial, modification or renewal of FCC station authorization, license, or construction permit denied by the Commission? If Yes, attach as an exhibit, an explanation of circumstances.

Yes No

37. Has the applicant, or any party to this application or amendment, or any party directly or indirectly controlling the applicant ever been convicted of a felony by any state or federal court? If Yes, attach as an exhibit, an explanation of circumstances.

Yes No

38. Has any court finally adjudged the applicant, or any person directly or indirectly controlling the applicant, guilty of unlawfully monopolizing or attempting unlawfully to monopolize radio communication, directly or indirectly, through control of manufacture or sale of radio apparatus, exclusive traffic arrangement or any other means or unfair methods of competition? If Yes, attach as an exhibit, an explanation of circumstances

Yes No

39. Is the applicant, or any person directly or indirectly controlling the applicant, currently a party in any pending matter referred to in the preceding two items? If yes, attach as an exhibit, an explanation of the circumstances.

Yes No

40. If the applicant is a corporation and is applying for a space station license, attach as an exhibit the names, address, and citizenship of those stockholders owning a record and/or voting 10 percent or more of the Filer's voting stock and the percentages so held. In the case of fiduciary control, indicate the beneficiary(ies) or class of beneficiaries. Also list the names and addresses of the officers and directors of the Filer.

41. By checking Yes, the undersigned certifies, that neither applicant nor any other party to the application is subject to a denial of Federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Act of 1988, 21 U.S.C. Section 862, because of a conviction for possession or distribution of a controlled substance. See 47 CFR 1.2002(b) for the meaning of "party to the application"; for these purposes. Yes No

42a. Does the applicant intend to use a non-U.S. licensed satellite to provide service in the United States? If Yes, answer 42b and attach an exhibit providing the information specified in 47 C.F.R. 25.137, as appropriate. If No, proceed to question 43. Yes No

42b. What administration has licensed or is in the process of licensing the space station? If no license will be issued, what administration has coordinated or is in the process of coordinating the space station?

43. Description. (Summarize the nature of the application and the services to be provided). (If the complete description does not appear in this box, please go to the end of the form to view it in its entirety.)

Intelsat License LLC, pursuant to Section 25.114 of the rules of Federal Communications Commission, hereby applies to launch and operate a C/Ku/Ka-band replacement satellite with new frequencies, to be known as Intelsat 33e, at the 60.0 E.L. orbital location. Intelsat 33e is scheduled for launch in the third quarter of 2016 and, after traffic transition,

Narrative & Exhibits

43a. Geographic Service Rule Certification

By selecting A, the undersigned certifies that the applicant is not subject to the geographic service or geographic coverage requirements specified in 47 C.F.R. Part 25.

A

By selecting B, the undersigned certifies that the applicant is subject to the geographic service or geographic coverage requirements specified in 47 C.F.R. Part 25 and will comply with such requirements.

B

By selecting C, the undersigned certifies that the applicant is subject to the geographic service or geographic coverage requirements specified in 47 C.F.R. Part 25 and will not comply with such requirements because it is not feasible as a technical matter to do so, or that, while technically feasible, such services would require so many compromises in satellite design and operation as to make it economically unreasonable. A narrative description and technical analysis demonstrating this claim are attached.

C

CERTIFICATION

The Applicant waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. The applicant certifies that grant of this application would not cause the applicant to be in violation of the spectrum aggregation limit in 47 CFR Part 20. All statements made in exhibits are a material part hereof and are incorporated herein as if set out in full in this application. The undersigned, individually and for the applicant, hereby certifies that all statements made in this application and in all attached exhibits are true, complete and correct to the best of his or her knowledge and belief, and are made in good faith.

44. Applicant is a (an): (Choose the button next to applicable response.)

- Individual
- Unincorporated Association

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND / OR IMPRISONMENT
(U.S. Code, Title 18, Section 1001), AND/OR REVOCATION OF ANY STATION AUTHORIZATION
(U.S. Code, Title 47, Section 312(a)(1)), AND/OR FORFEITURE (U.S. Code, Title 47, Section 503).

Completed Schedule S

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 0.25 – 24 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD–PERM, Paperwork Reduction Project (3060–0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060–0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104–13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

43. Description. (Summarize the nature of the application and the services to be provided).

Intelsat License LLC, pursuant to Section 25.114 of the rules of Federal Communications Commission, hereby applies to launch and operate a C/Ku/Ka-band replacement satellite with new frequencies, to be known as Intelsat 33e, at the 60.0 E.L. orbital location. Intelsat 33e is scheduled for launch in the third quarter of 2016 and, after traffic transition, will replace the Intelsat 904 satellite (call sign S2408), which is currently operating at 60.0 E.L.
