

Antenna Gain Contours for Beams UU1A, UU1B, UD1A, UD1B, UD1C, UD1D, UD1E, UD1F

Contours are plotted on the surface of the Earth with the approximate peak antenna gain pointed at nadir to a latitude and longitude within the proposed service area.

Contours are at -2 dB, -4 dB, -6 dB, -8 dB, -10 dB, -15 dB and -20 dB relative to beam peak.

Axes are plotted in azimuth (east-west) and elevation (north-south).
