Re: *Kuiper Systems LLC Notice of Ex Parte Presentation*
IBFS File No. SAT-LOA-20190704-00057, Call Sign S3051

Dear Ms. Dortch:

Pursuant to Section 1.1206 of the Federal Communications Commission's rules, this letter provides notice that on July 26, 2019, representatives of Amazon.com Services, Inc. subsidiary Kuiper Systems LLC ("Amazon") met with Commissioner Starks, his chief of staff and senior legal advisor, Bill Davenport, and intern Michael Weingartner in response to a request by the Commissioner's Office for a briefing on Amazon's Kuiper System. Participating on behalf of Amazon were Rajeev Badyal, Rod Fleck, C. Andrew Keisner, Steve Pollmann, and Darren Achord from Amazon, as well as Jennifer Hindin of Wiley Rein LLP.

The parties discussed Amazon's pending application for authorization to launch and operate the Kuiper System – a Ka-band non-geostationary satellite orbit ("NGSO") system providing high-speed, low-latency broadband services to tens of millions of unserved and underserved consumers and businesses in the United States and around the globe. In addition to providing an overview of the pending application, Amazon explained how NGSOs – and the Kuiper System in particular – can deliver quality broadband communications services to customers in rural and hard-to-reach areas.

Please contact the undersigned with any questions regarding this letter.

Respectfully submitted,

/s/ Jennifer D. Hindin
