Re: ICFS File No. SAT-LOA-20260112-00024

Dear Ms. Dortch:

The Federal Communications Commission granted Astranis Projects USA LLC ("Astranis") authority to launch and operate the ASTRANIS 131W GSO System ("Grant") in the above-referenced application.¹ Under Condition 13 of the Grant, Astranis was provided a 180-day deferral of the surety bond requirement pursuant to 47 C.F.R. § 25.165(a)(2) & (b), and under Condition 15(a) Astranis is required to post a surety bond no later than November 2, 2026.²

Pursuant to this letter, Astranis respectfully requests a six-month extension of the deferral of the surety bond required under 47 C.F.R. § 25.165 in this Grant. Thus, Astranis requests that the new date would be May 2, 2027. Astranis requests this extension due to delay in the planned launch of the satellite to the end of 2026.

Respectfully submitted,

/s/ Kimberly M. Baum

¹ Astranis Projects USA LLC, *Application for Authority to Launch and Operate the ASTRANIS 131W GSO System at the Nominal 131° W.L. Orbital Location in Ku-band and Ka-band Frequencies* (S00784), ICFS File No. SAT-LOA-20260112-00024, Grant Stamp (May 6, 2026).

² See *id.*, Conditions 13 & 15(a).
