Subject: ITU Cost Recovery Declaration for the Orbital Datacenter System Operating in Non-geostationary orbit in its non-planned Frequency Bands. (Orbital Datacenter System)

Reference: FCC Application File No. SAT-LOA-

Dear FCC Secretary,

Orbital Compute Inc. is aware that in accordance with Resolution 88 of the International Telecommunication Union's (ITU) Plenipotentiary Conference (Marrakech, 2002), and ITU Council Decision 482, as modified, cost-recovery fees will apply to satellite network filings received by the Radiocommunications Bureau after November 7, 1998. As a consequence, Commission applicants are responsible for any and all fees charged by the ITU to process their satellite network filings. Orbital Compute Inc. hereby states that it is aware of this requirement and unconditionally accepts all cost recovery responsibilities associated with the ITU filings for the Orbital Datacenter System satellite network. Please address all cost-recovery inquiries, and ITU correspondence and filings, related to the Orbital Datacenter System satellite network to the following point of contact. We understand that should there be any change in the point of contact information, we will inform the Commission within 30 days of change in point in contact.

Point of Contact Name: Euwyn Poon

Organization Name: Orbital Compute Inc.

Address: 1499 E 4th Street Suite 101, Los Angeles, CA 90033, USA

E-Mail: euwyn@orbital.inc

Telephone Number: +16469434895

Orbital Compute Inc. understands that it must remit payment of any resultant cost-recovery fee to the ITU by the due date specified in the ITU invoice, unless an appeal filed prior to the due date is pending with the ITU. We fully understand that a license granted in reliance on such a commitment will be conditioned upon discharge of any such cost-recovery obligation. We also acknowledge that, in accordance with 47 C.F.R. §25.111, should we have an overdue ITU cost-recovery fee and have no appeal pending with the ITU, the Commission may dismiss any application associated with that satellite network.

Sincerely,

/s/ Euwyn Poon
