**Re: Spectrum Five LLC, 17/24 GHz Broadcasting-Satellite Service Application,
File No. SAT-LOI-20160308-00025**

Dear Ms. Dortch:

On March 8, 2016, Spectrum Five applied for a license to provide 17/24 GHz Broadcasting-Satellite Service to the United States from the 110.9° W.L. orbital location.¹ I write to provide errata to that application.

First, the application should list the Netherlands as the “administration [that] has licensed or is in the process of licensing the space station” or “has coordinated or is in the process of coordinating the space station” in response to Question 42b on Form 312. As already explained in the narrative attached to that application, “the Kingdom of the Netherlands will act as the sponsoring administration for notification, coordination, examination, and registration of Spectrum Five’s networks to the ITU.”²

Second, the application inadvertently provided the same document as Appendix B-1 and Appendix B-2. A corrected Appendix B-2 is enclosed as Exhibit 1.

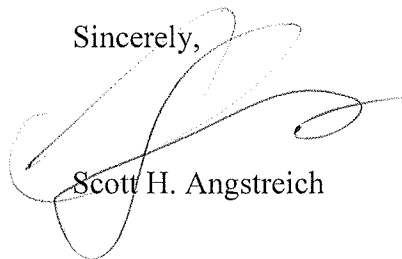

¹ See Application, *Spectrum Five LLC Petition for Declaratory Ruling to Provide Service from 110.9*, IBFS No. SAT-LOI-20160308-00025 (Mar. 8, 2016).

² See Application Narrative at 5, *Spectrum Five LLC Petition for Declaratory Ruling to Provide Service from 110.9*, IBFS No. SAT-LOI-20160308-00025 (Mar. 8, 2016).

KELLOGG, HUBER, HANSEN, TODD, EVANS & FIGEL, P.L.L.C.
