**FURTHER RENEWED MOTION FOR EXTENSION OF TIME**

In December 2015, the Commission comprehensively revised its milestone and bond rules.<sup>1</sup> Those rules took effect on September 19, 2016.<sup>2</sup> On October 5, 2016, the Commission granted Spectrum Five’s applications for satellite space station authorizations, seeking to provide service from 110.9° W.L. and 115° W.L.<sup>3</sup> Under those rules, and the conditions on the licenses, Spectrum Five was initially required to post surety bonds that comply with newly adopted 47 C.F.R. § 25.165(a)(2) & (b) by November 4, 2016. On November 2, 2016, November 18, 2016, December 2, 2016, December 16, 2016, and January 12, 2017, the Commission granted Spectrum Five’s motions for extension of time or, in the alternative, for waiver, and through

those grants has extended to February 10, 2017 the due date for Spectrum Five to post those surety bonds.

In its motions, Spectrum Five identified the need for further guidance on terms of a surety bond that will comply with the Commission's new rules. The Commission issued that guidance on January 18, 2017.<sup>4</sup> Since that date, Spectrum Five has worked diligently with Marsh & McLennan Companies and Chubb Limited to conform its surety bonds to that guidance. Spectrum Five renews its motion for an extension of the due date to February 24, 2017, in order to continue those efforts.

As Spectrum Five has explained in its prior motions, the extension and waiver Spectrum Five seeks will not alter either its surety bond obligations under 47 C.F.R. § 25.165(a)(2) or its launch milestone date under § 24.164(a). That is, both the minimum value of the bond required under § 25.165(a)(2) and the launch milestone date under § 25.164(a) will continue to be calculated from the date of the license grants (October 5, 2016).

For the foregoing reasons, the Commission should extend the deadline for the posting of surety bonds for these two licenses to February 24, 2017, or should waive 47 C.F.R. § 25.165(a) and Condition 4.a of each license grant to permit the posting of those surety bonds on or before that date.
