Re: ***De-orbiting of DIRECTV 2***

Dear Ms. Dortch:

DIRECTV Enterprises, LLC ("DIRECTV") hereby confirms that it has successfully de-orbited its DIRECTV 2 space station, which operated most recently pursuant to a Canadian license at the 91° W.L. orbital location. The de-orbiting was completed on May 20, 2007. The final measured orbit of the DIRECTV 2 satellite has an apogee and perigee of 499.3 km and 431.2 km above geosynchronous orbit, respectively. In the course of de-orbiting the satellite, DIRECTV depleted the propellant tanks, discharged the batteries, disconnected the power from the bus, and shut off all payloads and payload heaters.

If you have any questions, please do not hesitate to contact me at 202-730-1350.

Sincerely yours,

William M. Wiltshire
Counsel for DIRECTV Enterprises, LLC
