Washington, DC 20554

Re: Intelsat 602 De-orbit  
Call Sign: S2389

Dear Ms. Dortch:

Intelsat License LLC ("Intelsat") hereby notifies the Commission that it has successfully de-orbited its Intelsat 602 satellite. The de-orbiting was completed on July 30, 2012. The final measured orbit of the Intelsat 602 satellite is 357.2 km above the geostationary arc, with an apogee and perigee of 336.3 km and 378.1 km above the arc, respectively. In the course of de-orbiting the satellite, Intelsat depleted the propellant tanks, discharged the batteries, disconnected the power from the bus, and shut off the transmitters.

Please do not hesitate to contact the undersigned should you have any questions.

Respectfully submitted,

A handwritten signature in cursive script that reads "Susan H. Crandall/dj".

Susan H. Crandall  
Assistant General Counsel  
Intelsat Corporation
