Re: TerreStar License Inc.
Final Milestone Certification
Selected Assignment Notification
Request for Informative Public Notice
Call Sign S2633

Dear Ms. Dortch:

Pursuant to Section 25.143(e)(3) of the Commission's rules¹ and its letter of intent ("LOI") authorization,² TerreStar License Inc. ("TerreStar") hereby provides the attached certification that the TerreStar-1 satellite, which is the satellite system that is the subject of its LOI authorization, is operational.

¹ 47 C.F.R. § 25.143(e)(3).

² See, e.g., *TMI Communications and Company, Limited Partnership, and TerreStar Networks, LLC; Application for Modification of Spectrum Reservation for 2 GHz Mobile Satellite Service System*, Order, 22 FCC Rcd 8602 (2007) (modifying the spectrum reservation to allow TerreStar Networks Inc. ("TerreStar Networks") to hold the LOI authorization). At the parties' request, the Commission subsequently changed its records to make TerreStar, which is a wholly-owned subsidiary of TerreStar Networks, the holder of the LOI authorization.

Marlene H. Dortch

Page 2 of 2

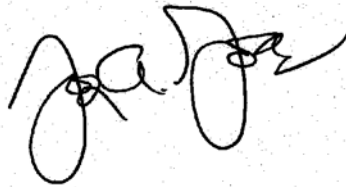

Accordingly, TerreStar has satisfied the FCC milestone requiring that the satellite system be operational on or before August 30, 2009.

In addition, based on the fact that TerreStar-1 has commenced operation at its authorized orbital location, TerreStar hereby chooses the 2000-2100 MHz and 2190-2200 MHz bands as its Selected Assignment pursuant to Establishment of Policies and Service Rules for the Mobile Satellite Service in the 2 GHz Band, 15 FCC Rcd 16127 16 (2005), and Use of Returned Spectrum in the 2 GHz Mobile Satellite Service Frequency Bands, FCC 05-204 (Dec. 9, 2005).

Finally, TerreStar respectfully requests that the Commission issue an Informative Public Notice confirming that TerreStar has met the launch and operation milestones associated with its reservation of spectrum in the 2 GHz frequency band for the TerreStar-1 satellite, and that TerreStar/TerreStar Networks therefore may cancel the bond for TerreStar-1³ as provided in Amendment of the Commission's Space Station Licensing Rules and Policies, First Report and Order and Further Notice of Proposed Rulemaking, IB Docket No. 02-34, 18 FCC Rcd 10760 (2003) and Amendment of the Commission's Space Station Licensing Rules and Policies, First Order on Reconsideration and Fifth Report and Order, IB Docket No. 02-34, 19 FCC Rcd 12637 (2004).

Please direct any questions concerning this filing to the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Godles", with a stylized flourish at the end.

Joseph A. Godles
Attorney for TerreStar License Inc.

Attachment

³ The bond is associated with a licensed gateway earth station, FCC File No. SES-LIC-20070530-00732, call sign E070098.

CERTIFICATION

1. I am the General Counsel & Secretary of TerreStar License Inc. ("TerreStar"), holder of an FCC letter of intent authorization to operate the 2 GHz MSS satellite network known as TerreStar-1.
2. On July 19, 2009, TerreStar successfully completed an end-to-end phone call over the TerreStar-1 satellite and TerreStar's integrated all-IP satellite-terrestrial smartphone in the 2000-2010 MHz and 2190-2200 MHz bands. TerreStar-1, therefore, is operational.
3. I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

/s/Douglas Brandon
