Re: Marisat F2 De-orbit
Call Sign: KS35

Dear Ms. Dortch:

Intelsat North America LLC ("Intelsat") hereby notifies the Commission that it has successfully de-orbited its Marisat F2 satellite. The de-orbiting was completed on October 31, 2008. The final predicted orbit perigee of the Marisat F2 satellite is 349 km above the geostationary arc; the apogee is 1257 km above the arc. In the course of de-orbiting the satellite, Intelsat depleted the propellant tanks, discharged the batteries, disconnected the power from the bus, and shut off the transmitters.

Please do not hesitate to contact the undersigned should you have any questions.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Susan H. Crandall".

Susan H. Crandall
Assistant General Counsel
Intelsat Corporation
