**Re: Modification of ORBIMAGE License Corp.'s Non-Geosynchronous Orbit
Satellite System; Call Sign S2348 (File Nos. SAT-MOD-20050511-00097
and SAT-AMD-20051118-00234)**

Dear Mr. Nelson:

On January 9, 2006, the Commission granted the application of ORBIMAGE License Corp, Inc. ("ORBIMAGE") to modify its existing NGSO space station license, S2348, by adding OrbView-5 to the system. ORBIMAGE anticipates that it will soon submit the International Telecommunication Union ("ITU") Advance Publication Information for this satellite.

By this letter, ORBIMAGE acknowledges that it is responsible for any and all fees charged by the ITU. *See* Public Notice, DA 01-2435 (October 19, 2001). This letter constitutes confirmation that ORBIMAGE is aware of, and unconditionally accepts, this requirement and its responsibility to pay any ITU cost recovery fees associated with its ITU filings for this satellite and others associated with the system for which ORBIMAGE may file at a later date. ORBIMAGE will pay any such fees at the appropriate time.

If there are any questions regarding this matter, please call me.

Very truly yours,

William Warren
SVP, General Counsel and Corporate Secretary
ORBIMAGE License Corp.
