Re: Application to Modify License for INTELSAT 602 (S2389)
File No. SAT-MOD-20050512-00098

JUN 06 2005

Policy Branch
International Bureau

Dear Ms. Dortch:

Intelsat LLC ("Intelsat") recently filed the above-referenced application to modify the license for INTELSAT 602 to allow its operation at the 150.5° E.L. orbital location.¹ On May 19, 2005, Intelsat informed the Commission by letter that Intelsat was attempting to obtain from the government of Indonesia written confirmation of statements made by Indosat in a May 9, 2005 letter that was included with the above-referenced application.² Specifically, Intelsat sought confirmation of Indosat's statements acknowledging that Intelsat's "operation of INTELSAT 602 at 150.5° E.L." is "governed by the authorization provided by the U.S. Federal Communications Commission."³

Enclosed please find a copy of a letter dated June 1, 2005 from the government of Indonesia, in which the government of Indonesia confirms that it has licensed Indosat to operate a satellite at 150.5° E.L., and that the operation of INTELSAT 602 at 150.5° E.L. is governed by a license provided by the FCC, and not Indonesia. Intelsat respectfully requests that the Commission make the June 1, 2005 letter from the government of Indonesia a part of the record in this proceeding.

Sincerely,

Susan H. Crandall
Assistant General Counsel
Intelsat Global Service Corporation

Enclosure

¹ See Intelsat LLC; Application to Modify License for INTELSAT 602, File No. SAT-MOD-20050512-00098 (filed May 12, 2005) ("*INTELSAT 602 Modification Application*").

² See Letter from Susan H. Crandall, Assistant General Counsel, Intelsat Global Service Corporation, to Marlene H. Dortch, Secretary, Federal Communications Commission, File No. SAT-MOD-20050512-00098 (dated May 19, 2005).

³ *INTELSAT 602 Modification Application* at Exhibit B.

Our Ref : 844/Dit. KI/M/VI/2005

Subject : Indosat/Intelsat Agreement Dated 13 January 2005

This letter is being sent with regards to the above-referenced agreement concerning the operation of the INTELSAT 602 satellite at 150.5° E.L.

This is to confirm that Indonesia, being the notifying administration for Indosat, has licensed Indosat to operate its systems' satellites at 150.5° E.L. Indonesia has not, however, licensed Intelsat's operation of INTELSAT 602 at 150.5° E.L., which we recognize is governed by the authorization provided by the U.S. Federal Communications Commission.

This confirmation to the reference mentioned above is subject to the compliance of the satellite operation with the telecommunication laws and regulations of the Republic of Indonesia.

Sincerely,
[Signature]
DJAMHARI SIRAT
