On June 14, 2005, I, along with Roderick Porter, Thomas Tycz, Jennifer Gilsean, and Gardner Foster, members of my staff, participated in a teleconference with a representative of the Mexican telecommunications regulatory body, Mr. Eugenio Gamboa Hiraes, *Coordinador de Desarrollo Tecnológico, Secretaria de Comunicaciones y Transportes* ("SCT") regarding matters related to the above referenced filings by Echostar. Specifically, we noted the pendency of all publicly filed documents in the referenced subject matter. We also discussed the need for an exchange of letters which is customary in these types of requests to use foreign orbital locations.
