# FEDERAL COMMUNICATIONS COMMISSION SATELLITE SPACE STATION AUTHORIZATIONS (Technical and Operational Description)

Page 1: General, Frequency Bands, and GSO Orbit

| S1. GENERAL | _ INFORMATION | Complete for | all satellite | applications |
|-------------|---------------|--------------|---------------|--------------|
|-------------|---------------|--------------|---------------|--------------|

| a. Space Station or Satellite No<br>@CONTACT NGSO | etwork Name:             | e. Estimated Date of Placement into Service:                         | i Will the space station(s) operate on a Common Carrier Basis: |  |  |  |
|---|--------------------------|--|--|--|--|--|
| b. Construction Commenceme                        | nt Date:                 | f. Estimated Lifetime of Satellite(s): Years                         | j. Number of transponders offered on a common carrier basis:   |  |  |  |
| c. Construction Completion Da                     | te:                      | g. Total Number of Transponders:                                     | k. Total Common Carrier Transponder Bandwidth: MHz             |  |  |  |
| d1. Est Launch Date Begin:                        | d2. Est Launch Date End: | h. Total Transponder Bandwidth (no. transponders x Bandwidth)<br>MHz | I. Orbit Type: Mark all boxes that apply:  X GSO NGSO          |  |  |  |

### S2. OPERATING FREQUENCY BANDS Identify the frequency range and transmit/receive mode for all frequency bands in which this station will oper Also indicate the nature of service(s) for each frequency band.

|                   | Frequency          | Band Limits           |                    |             |   |  |  |  |  |
|-------------------|--------------------|-----------------------|--------------------|-------------|---|--|--|--|--|
| Lower Frequency ( | _Hz)               | Upper Frequency (_Hz) |                    | e. T/R Mode | f. Nature of Service(s): List all that apply to this band |  |  |  |  |
| a. Numeric        | b. Unit<br>(K/M/G) | c. Numeric            | d. Unit<br>(K/M/G) |             | (,, ,, ,, ,, ,, ,, ,, ,, ,, ,, ,, ,, ,,                   |  |  |  |  |
| 29.097            | G                  | 29.099                | G                  | R           | Telecommand   |  |  |  |  |
| 28.601            | G                  | 28.603                | G                  | R           | Telecommand   |  |  |  |  |
| 19.297            | G                  | 19.299                | G                  | Т           | Telemetry   |  |  |  |  |
| 18.801            | G                  | 18.803                | G                  | Τ           | Telemetry   |  |  |  |  |

#### S3. ORBITAL INFORMATION FOR GEOSTATIONARY SATELLITES ONLY:

| a. Nominal Orbital Longitude | e (Degrees E/W):        | b. Alternate Orbital Longitu | ide (Degrees E/W):                                 |                  |     | c. Reason for orbital location selection: |
|------------------------------|-------------------------|------------------------------|--|------------------|-----|---|
| 83 W                         |                         |                              |  |                  |     |   |
| Longitudinal Tolerance or E/ | 1 0                     |                              | Range of orbital are in which provided (Optional): | ch adequate serv |     |   |
| d. Toward West:              | 0.05 Degrees            | Tolerance:                   | . , , , ,  | Degrees          | E/W |   |
| e. Toward East:              | 0.05 Degrees            | 0.05 Degrees                 | g. Westernmost:<br>h. Easternmost:                 |                  |     |   |
| i. Reason for service are    | e selection (Optional): |                              |  |                  |     |   |
|                              |                         |                              |  |                  |     |   |

Page 2: NGSO Orbits

FCC Form 312 - Schedule S: (Technical and Operational Description)

#### S4. ORBITAL INFORMATION FOR NON-GEOSTATIONARY SATELLITES ONLY

S4a. Total Number of Satellites in Network or System:

S4c. Celestial Reference Body (Earth, Sun, Moon, etc.):

S4b. Total Number of Orbital Planes in Network or System: S4d. Orbit Epoch Date:

#### For each Orbital Plane Provide:

| (e) Orbital | (f) No. of    | (g) Inclination | (h) Orbital | (i) Apogee (km) | (j) Perigee (km) | (k) Right Ascension | (I) Argument of | Active Service Arc Range (De |         | e (Degrees) |
|-------------|---------------|-----------------|-------------|-----------------|------------------|---------------------|-----------------|------------------------------|---------|-------------|
| Plane No.   | Satellites in | Angle (degrees) | Period      |                 |                  | of the Ascending    | Perigee         | (m) Begin                    | (n) End | (o) Other   |
|             | Plane         |                 | (Seconds)   |                 |                  | Node (Deg.)         | (Degrees)       | Angle                        | Ångle   | . ,         |
|             |               |                 | (=====)     |                 |                  | ( 9-)               | ( 5,000)        | ,g.o                         | gio     |             |

S5. INITIAL SATELLITE PHASE ANGLE For each satellite in each orbital plane, provide the intital phase angle.

| (a) Orbital<br>Plane No. | (b) Satellite<br>Number | (c) Initial Phase Angle |
|--------------------------|-------------------------|-------------------------|
|                          |                         | (Degrees)               |

**NO NGSO DATA FILED** 

FCC Form 312 - Schedule S: (Technical and Operational Description)

#### S6. SERVICE AREA CHARACTERISTICS for each service area provide:

| (a) Service Area | (b) Type of Associated<br>Station (Earth or<br>Space) | (d) Service Area Description. Provide list of geographic areas (state postal codes or ITU 3-ltr codes), satellites or Figure No. of Service Area Diagram. |
|------------------|---|---|
| 1                | S   | AAA   |

Page 3: Service Areas

Page 4: Antenna Beams

FCC Form 312 - Schedule S: (Technical and Operational Description)

#### S7. SPACE STATION ANTENNA BEAM CHARACTERISTICS For each antenna beam provide:

| (a)  | (b)  | Isotropic | Antenna  | (e)       | (f)        | (g) Min.    | (h) Polar-     | (i) Polarization | (j) Service |                | Transmit      |               |          | Receive |              |              |            |
