Re: Globalstar Licensee LLC -- Application for Minor Modification of Space
Station Authorization, FCC File No. SAT-MOD-20080516-00106
Public Notice DA 08-1217

Dear Ms. Dortch:

I am writing to provide additional information in connection with the October 14, 2008, and October 16, 2008, *ex parte* submissions of Globalstar Licensee LLC ("Globalstar") for the record in the above-referenced application proceeding. In its submissions, Globalstar and Open Range Communications, Inc. ("Open Range") proposed a specific target schedule for the deployment of MSS/ATC service. This letter clarifies that the offer of an exchange upgrade to 2,500 customers who participate in the proof-of-concept deployment of service, referred to in the first bullet on page 2 of the paper submitted on October 14, will be at no cost to the customer, rather than at cost as indicated in the October 16, 2008 letter.

Should there be any questions concerning this submission, please contact the undersigned.

Sincerely yours,

William T. Lake
Counsel to Globalstar Licensee LLC
