

# memorandum

DATE: October 29, 2008

TO: File No. SAT-MOD-20080516-00106

FROM: Robert Nelson, Chief, Satellite Division, International Bureau 

SUBJECT: Ex Parte Presentation in "permit but disclose" Proceeding

On October 23, 2008, I spoke twice by telephone to Jon Christensen, representing Open Range Communications, concerning Globalstar's request to modify its ATC authorization. Mr. Christensen stated Open Range's view that a modified ATC authorization should not be conditioned on Globalstar meeting satellite build out requirements. He stated that he thought the issue was covered by Section 25.149 of the FCC's rules.
