Re: Ex Parte Notification
Globalstar Licensee LLC -- Application for Minor Modification of Space
Station Authorization. FCC File No. SAT-MOD-20080516-00106
Public Notice DA 08-1217

Dear Ms. Dortch:

Globalstar Licensee LLC ("Globalstar") submits the following additional information for the record in the above-referenced application proceeding. At the request of the NTIA, Globalstar hereby confirms that MSS/ATC mobile terminals and base stations operated in the 2483.5-2495 MHz band will comply with the out-of-band emission limits set forth in the following tables for all emission types.

Mobile Terminals

Globalstar ATC mobile terminals placed into service before January 1, 2012, will comply with the unwanted emission limits shown in Table 1.

Table 1

Frequency (MHz)	ATC Mobile Terminal EIRP Density – Before January 1, 2012	
	dBW/MHz	dBW/kHz
1559-1610	-90	-100

Globalstar ATC mobile terminals placed into service on or after January 1, 2012, will comply with the unwanted emission limits shown in Table 2.

Table 2

Frequency (MHz)	ATC Mobile Terminal EIRP Density – Commencing January 1, 2012	
	dBW/MHz	dBW/kHz
1559-1610	-95	-105

Base Stations

Globalstar base stations placed into service will comply with the unwanted emission limits shown in Table 3.

Table 3

Frequency (MHz)	ATC Base Station EIRP Density	
	dBW/MHz	dBW/kHz
1559-1610	-100	-110

Should there be any questions concerning this submission, please contact the undersigned.

Sincerely yours,

William F. Adler
