Subject: File No. SAT-MOD-20080725-00150

Andrea -- In the above referenced application, PanAmSat Licensee Corp. requested a waiver of Section 25.202 (a)(1) of the FCC's rules to allow PanAmSat to provide service to and from the United States in the band 11450-11700 MHz on a non-interference basis. Because the limitation on use of this band only for international systems also exists in footnote NG104 the FCC's Table of Frequency Allocations, PanAmSat hereby clarifies that it also seeks a waiver of footnote NG104 of the Table of Frequency Allocations (47 C.F.R. Section 2.106, NG104).

Please let me know if you have any questions concerning this clarification.
