Response to Question 35 Request for Waiver

ViaSat, Inc. (“ViaSat”) requests a modification of the authorizations for its satellites at 115° W.L. (S2747) and at 77° W.L. (S2737) to allow ViaSat to reverse the order in which the two satellites are implemented. ViaSat seeks a waiver or extension of the remaining milestones for the 77° W.L. satellite to the extent the Commission deems it necessary to allow that satellite to be deployed later than as currently provided under its remaining milestones. ViaSat has indicated in response to Question 35 of the Form 312 for the 115° W.L. satellite that a waiver is requested because the attached narrative references a waiver of milestones. Such a waiver request, however, applies only to the 77° W.L. satellite.

**Response to Question 42a
Non-U.S. Space Station**

ViaSat's authorization at the 115° W.L. location is for a non-U.S.-licensed space station. ViaSat previously has provided, and the Commission has approved, the information required by 47 C.F.R. § 25.137 for this satellite. *See* FCC File Nos. SAT-LOI-20080107-00006, SAT-AMD-20080623-00131, SAT-AMD-20090213-00023 (granted Aug. 18, 2009).

Waiver Pursuant to Section 304 of the Communications Act

In accordance with Section 304 of the Communications Act of 1934, as amended, and the Commission's Rules, ViaSat waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise. *See* 47 U.S.C. § 304; 47 C.F.R. § 25.114(b).
