FEB - 8 2012

FCC Mail Room

The Honorable Lawrence E. Strickling  
Assistant Secretary for Communications and Information  
National Telecommunications & Information Administration  
United States Department of Commerce  
1401 Constitution Ave., N.W.  
Washington, DC 20230

FB Docket 11-109

Dear Assistant Secretary Strickling:

As a partner in a law firm located in New York's Capital Region with clients from rural parts of New York State, I know firsthand the problems that are caused by a lack wireless broadband coverage.

I am writing to express my support for LightSquared's effort to develop their wireless broadband network. I have heard that they are prepared to invest over \$14 billion to bring coverage to over 260 million people across the country with a focus on helping rural areas of our state and country.

Please do all that you can to bring some sanity to the process in Washington and ensure LightSquared is given a fair chance to demonstrate that their network and our nation's GPS devices can work in harmony.

Sincerely,

Harry D'Agostino, Esq.  
Partner
