THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

calculated that there is ample fuel onboard the XM-3 spacecraft for the spacecraft to continue providing reliable service through April 2021. In making these calculations, XM Radio has assumed that XM-3 will remain at the nominal 85° W.L. orbital location⁴ and that standard stationkeeping maneuvers will be performed to maintain the spacecraft within its existing east-west and north-south stationkeeping tolerances.⁵

XM Radio proposes no change in XM-3's operations, which will continue to conform to the technical parameters on file with the Commission. Nor does the proposed extension require any alteration in the orbital debris mitigation plans regarding the spacecraft. XM Radio has confirmed that at the conclusion of the requested renewal period, the spacecraft will have sufficient fuel to be placed into disposal orbit at the altitude previously submitted, which complies with the IADC standard.

Renewing the license for XM-3 will serve the public interest by allowing the spacecraft to continue to provide primary satellite radio service. In addition, granting the license renewal will promote the efficient use of orbital resources.

⁴ Because XM Radio does not currently contemplate relocating XM-3 to another orbital location, XM Radio has not made an allowance for the additional fuel that would be expended during a relocation. In the event a future change in plans involves relocating XM-3 to another orbital location, the impact of such relocation on the fuel end-of-life for the spacecraft will depend on the parameters of the relocation, including the distance and speed of the move.

⁵ Thus, the calculations do not assume that the spacecraft will be placed into inclined orbit during the requested renewal period.

For the foregoing reasons, XM Radio hereby respectfully requests that the Commission renew the license for XM-3 through April 20, 2021.

Respectfully submitted,

XM Radio LLC

**Re: XM Radio LLC Application to Renew XM-3 Satellite License
File No. SAT-MOD-20121107-00192, Call Sign S2617**

Dear Ms. Dortch:

XM Radio LLC ("XM Radio"), a subsidiary of Sirius XM Radio Inc., hereby provides supplemental information requested by the Commission staff in connection with the above-referenced application to renew the XM-3 space station license. By this letter, XM Radio confirms that this satellite's overall health is good and there are no material issues with the spacecraft's operation or functionality. There is no single point of failure in the satellite's design, all satellite subsystems are functioning nominally, including the power system and solar panels, and there is no problem with the satellite's telemetry or tracking and command ("TT&C") links, including the back-up TT&C links.

Please let me know if you have any further questions regarding this matter.

Respectfully submitted,

/s/ Bridget Neville
