Re: *Submission of Measured Transmitting Antenna Off-Axis Gain Information for
DIRECTV RB-2 (Call Sign S2712)*

Dear Mr. Albuquerque:

Enclosed herewith you will find a CD with the measured transmitting antenna off-axis gain information for DIRECTV RB-2, a geostationary satellite in the 17/24 GHz Broadcasting Satellite Service authorized to operate at the nominal 103° W.L. orbital location.¹ We are submitting this information in this manner because the file is so large (over 73 MB) that it cannot be filed electronically. Please associate this data with DIRECTV's narrative submission filed via IBFS.

Thank you for your assistance. If you have any questions, please do not hesitate to contact me.

Sincerely yours,

William M. Wiltshire
Counsel for DIRECTV Enterprises, LLC
