

Exhibit C

Description of Application

LightSquared Subsidiary LLC, Debtor-in-Possession (“LightSquared”), hereby requests an extension of the license term of MSAT-2 for one year through December 31, 2015. The license term for MSAT-2 expires on December 31, 2014.¹ LightSquared has launched and commenced operations of SkyTerra 1, the replacement satellite for MSAT-2, and most customers have been transitioned to that spacecraft.² However, some customers continue to receive service on MSAT-2 and have asked that LightSquared continue to provide service on MSAT-2. MSAT-2 remains operational and, in addition, is a suitable back-up satellite for SkyTerra 1 customers,³ some of which provide service to government and public safety entities. Further, LightSquared has confirmed that, at the conclusion of the requested extension period, MSAT-2 will have sufficient fuel to de-orbit to a disposal altitude that complies with the Inter-Agency Space Debris Coordination Committee standard, as stated in the MSAT-2 orbital debris mitigation plan.⁴ The proposed extension therefore would not impact the orbital debris mitigation plan for the satellite. The Commission previously has granted similar requests to extend the license term of MSAT-2,⁵ and granting the instant request similarly would serve the public interest.

¹ See Stamp Grant, IBFS File No. SAT-MOD-20131204-00143 (granted Feb. 11, 2014).

² See Report No. SAT-00759 (Feb. 18, 2011); Letter from Bruce D. Jacobs to Marlene H. Dortch, Call Sign S2358 (Jan. 21, 2011).

³ See Annual Satellite Status Report, Call Signs AMSC-1 and S2358 (June 29, 2012) (documenting the transition of SkyTerra 1 customers to MSAT-2 when unusually intense solar activity temporarily impacted operations of SkyTerra 1).

⁴ See IBFS File No. SES-MFS-20070530-00731, Technical Narrative at 35-36.

⁵ See Stamp Grant, IBFS File No. SAT-MOD-20131204-00143 (granted Feb. 11, 2014); Stamp Grant, IBFS File No. SAT-MOD-20121128-00203 (granted Jan. 24, 2013).
