Exhibit C

Description of Application

LightSquared Subsidiary LLC, Debtor-in-Possession (“LightSquared”), hereby requests an extension of the license term of MSAT-2 for one year through December 31, 2015. The license term for MSAT-2 expires on December 31, 2014.¹ LightSquared has launched and commenced operations of SkyTerra 1, the replacement satellite for MSAT-2, and most customers have been transitioned to that spacecraft.² However, some customers continue to receive service on MSAT-2 and have asked that LightSquared continue to provide service on MSAT-2. MSAT-2 remains operational and, in addition, is a suitable back-up satellite for SkyTerra 1 customers,³ some of which provide service to government and public safety entities. Further, LightSquared has confirmed that, at the conclusion of the requested extension period, MSAT-2 will have sufficient fuel to de-orbit to a disposal altitude that complies with the Inter-Agency Space Debris Coordination Committee standard, as stated in the MSAT-2 orbital debris mitigation plan.⁴ The proposed extension therefore would not impact the orbital debris mitigation plan for the satellite. The Commission previously has granted similar requests to extend the license term of MSAT-2,⁵ and granting the instant request similarly would serve the public interest.
