12. Description

On behalf of PanAmSat Licensee Corp. ('PanAmSat'), we hereby request extension of Special Temporary Authority ('STA') (FCC File No. SES-STA-19991216-02209) for PanAmSat to continue operation of a new 9.3-m Ku-band earth station ('NK-6'). On May 18, 1999, PanAmSat filed an application (FCC File No. SES-LIC-19990518-00932) for a new 9.3-m antenna whose primary purpose is tracking, telemetry and control (TT&C) of the Galaxy XI satellite. PanAmSat continues to have need of STA for the above-referenced antenna to cover operation of the standard Ku-band frequencies listed in the particulars of operation section of the pending application. TT&C operations require only standard Ku-band frequencies; accordingly, PanAmSat is not requesting herein authorization to operate the extended Ku-band frequencies 13.75-14.0 GHz listed in the subject application.
