FREQUENCY BANDS

The frequency bands to be used by the WorldView-4 satellite are shown in Table 1 below. They are identical to the frequency bands originally requested.

Type of Signal	Frequencies
X-band Data Downlink	8025-8400 MHz (375 MHz)
X-band TT&C Downlink	8386 MHz (120 KHz)
S-band TT&C Uplink	2052 MHz (64 KHz)
