Re: DG Consents Sub, Inc. Notification
File No. SAT-MOD-20120427-00079, as modified by SAT-MOD-20160408-00033
Call Sign S2348

Dear Ms. Dortch:

On August 5, 2016, in File No. SAT-MOD-20160408-00033, DG Consents Sub, Inc. (“DG Consents”) received authority to modify the authorization to add the WorldView-4 satellite to its Earth Exploration Satellite Service system licensed under Call Sign S2348. *See* SAT-MOD-20120427-00079 (initial authority to add WorldView-4, granted on October 12, 2012). Condition 6 to the modification authorization requires that DG Consents file a notification with the Commission specifying the apogee and perigee altitudes and orbital inclination of WorldView-4 within 30 days of its launch.

By this letter, DG Consents notifies the Commission that the WorldView-4 satellite was successfully launched and inserted into orbit on November 11, 2016, resulting in the following orbital parameters:

Apogee altitude: 636 km (apogee radius = 6998.2 km)
Perigee altitude: 624 km (perigee radius = 6981.8 km)
Orbital inclination: 97.974 degrees

Please direct any questions regarding this notification to the undersigned counsel.

Respectfully submitted,

s/ Philip A. Bonomo

Philip A. Bonomo
Counsel to DG Consents Sub, Inc.
