Re: Application of Intelsat License LLC to Modify Authorization for Intelsat 29e (S2913)
File No. SAT-MOD-20160916-00091

Dear Ms. Dortch:

At the request of the Federal Communications Commission (“FCC” or “Commission”) staff, Intelsat License LLC (“Intelsat”) herein supplements its Application to Modify Authorization for Intelsat 29e (S2913) to clarify that the spacecraft’s command channels with center frequencies from 5850.5 MHz to 5853.0 MHz and 6422.0 MHz to 6424.5 MHz are selectable via ground command in 100 kHz steps.

In addition, Intelsat is correcting a typographical error in Table 2: Requested Modified Command Channels from Schedule S, Table S9. The correct table should read:

S9. Space Station Channels					
a. Channel ID	b. Assigned Bandwidth (kHz)	c. T/R Mode	d. Center Frequency (MHz)	e. Polarization	f. TT&C or Comm
CMD1	3500	R	6423.25	V	T
CMD2	3500	R	6423.25	L	T
CMD3	3500	R	5851.75	L	T

Please direct any questions regarding this supplement to the undersigned at (703) 559-6949.

Respectfully submitted,

Cynthia J. Grady
Regulatory Counsel
Intelsat Corporation
