Washington, DC 20554

RE: Planet Labs Inc., SAT-MOD-20170713-00103, Call Sign S2912

Dear Ms. Dortch:

DigitalGlobe, Inc. (“DigitalGlobe”) and Planet Labs Inc. (“Planet”) jointly submit this letter to notify the Federal Communications Commission that the parties have reached a coordination agreement regarding their shared use of frequencies for their satellite systems (Call Signs S2129 and S2348, and S2912, respectively). As a result, DigitalGlobe withdraws its letter seeking to impose conditions on the grant of the above-referenced modification application¹ and affirms that it has no objection to the immediate grant of that application.
