Re: DG Consents Sub, Inc., SAT-MOD-20180918-00073, Call Sign S2129

To Whom It May Concern:

By this letter, DG Consents Sub, Inc. ("DigitalGlobe") clarifies certain details regarding the above-captioned modification to add twelve new WorldView-Legion satellites to its constellation.

First, DigitalGlobe provides the expected service life for the existing satellites authorized under Call Sign S2129:

- WorldView-1: 10/1/2020
- WorldView-2: 10/1/2022
- WorldView-3: 2/1/2026

Accordingly, DigitalGlobe does not anticipate that there will be a gap in coverage between current operations and when Block 1 of the new constellation launches and commences operations.

Second, DigitalGlobe confirms that there have been no changes to the approved orbital debris plan for WorldView-1, -2, or -3.

Please contact me with any questions.

Best regards,
